the notion of mobilities when looked at from a practical point of view turns out to cover  
 different kinds of human activity it is not surprising then that when approached from an  
 academic perspective it reveals enormous potential for interdisciplinary research which has  
 proven extremely attractive to many scholars from different continents disciplines and schools

of academic inquiry the scholars in this volume focus on the specific aspects of mobilities namely tourism and travel behavior but approach them from a plethora of positions such a myriad of perspectives is bound to be challenging in methodological terms but it seems there is a growing agreement as to the worthiness of this interdisciplinary research by means of combining various approaches researchers obtain access to a fascinating and increasingly ubiquitous phenomenon of contemporary human mobility

on the whole this book presents gift giving as an intuitive path toward a viable economy society and culture here on earth and even toward an amiable engagement with our cosmic surroundings in the future

complex problem solving cps and related topics such as dynamic decision making ddm and complex dynamic control cdc represent multifaceted psychological phenomena in abroad sense cps encompasses learning decision making and acting in complex and dynamic situations moreover solutions to problems that people face in such situations are often generated in teams or groups this adds another layer of complexity to the situation itself because of the emerging issues that arise from the social dynamics of group interactions this framing of cps means that it is not a single construct that can be measured by using a particular type of cps task e g minimal complex system tests which is a view taken by the psychometric community the proposed approach taken here is that because cps is multifaceted multiple approaches need to be taken to fully capture and understand what it is and how the different cognitive processes associated with it complement each other thus this research topic is aimed at showcasing the latest work in the fields of cps as well as ddm and cdc that takes a holist approach to investigating and theorizing about these abilities the collection of articles encompasses conceptual approaches as well as experimental and correlational studies involving established or new tools to examine cps ddm and cdc this work contributes to answering questions about what strategies and what general knowledge can be transferred from one type of complex and dynamic situation to another what learning conditions result in transferable knowledge and skills and how these features can be trained
