the regional offices of the food and agriculture organization of the united nations fao the world organisation for animal health oie and the world health organization who in asia and the pacific region regional tripartite have a longstanding and successful partnership in promoting and facilitating a one health approach to address challenges at the human animal environment interface the regional tripartite has agreed to collaborate to enhance multisectoral partnerships at country level ensuring that necessary multisectoral interventions reach all the affected populations in need including hard to reach vulnerable populations and to accelerate control and elimination of neglected parasitic zoonoses across the asia and the pacific region prevention and control of infection in animals is one of the critical means to reduce the burden of zoonoses in humans therefore the animal health sector has a very important role to play however awareness and knowledge are often limited among veterinary authorities public health practitioners animal health practitioners and animal owners this handbook focuses on interventions that the animal health sector can implement to prevent human and animal disease caused by these parasites it aims to provide up to date information in a concise form and is expected to encourage the relevant stakeholders to take actions to control and prevent neglected parasitic zoonoses although the handbook was written primarily for asia and the pacific region the information is relevant in many other regions

neglected parasitic zoonoses such as cysticercosis and echinococcosis are a group of zoonoses that continue to impose a

significant burden and affect livelihoods of the vulnerable populations that typically have limited access to adequate sanitation basic living conditions health and veterinary services and awareness recognising the disease burden and importance of a multisectoral approach to controlling and eliminating neglected parasitic zoonoses in 2018 the regional tripartite jointly organised a regional workshop on neglected foodborne parasitic zoonoses to control zoonoses in an efficient effective and sustainable way it is important to understand the transmission cycle of each disease and to implement strategic interventions at key stages via multisectoral participation from public health animal health environmental health and food safety prevention and control of infection in animals is one of the critical means to reduce the burden of zoonoses in humans therefore the animal health sector has a very important role to play however awareness and knowledge are often limited among veterinary authorities public health practitioners animal health practitioners and animal owners this handbook focuses on interventions that the animal health sector can implement to prevent human and animal disease caused by these parasites it aims to provide up to date information in a concise form and is expected to encourage the relevant stakeholders to take actions to control and prevent neglected parasitic zoonoses although the handbook was written primarily for asia and the pacific region the information is relevant in many other regions we hope you find this handbook useful and practical

in 2016 the world health assembly adopted the global health sector strategy ghss on viral hepatitis the ghss called for elimination of viral hepatitis b and c infection as a public health problem defined as a 90 reduction in incidence 95 for hbv and 80 for hcv and 65 reduction in mortality by 2030 compared with the 2015 baseline a broad range of countries have now developed national viral hepatitis plans and several countries also requested guidance from the world health organization who on the establishment of global criteria for measuring elimination of viral hepatitis and a standardized process for validation of elimination who has developed this interim guidance for countries and other stakeholders seeking validation of elimination of viral hepatitis as a public health problem with a specific focus on hepatitis b virus hbv and hepatitis c virus hcv it provides a global framework for the processes and standards for validation of elimination and overall proposes the use of absolute impact targets to validate elimination at the national level instead of although equivalent to the relative reduction targets originally defined in the 2016 ghss in combination with a set of programmatic targets

both Europe and the US have now dampened the shrillness of the invective hurled against each other over the last years but the underlying differences have not been resolved the two sides drift apart in their views on what internal politics should achieve as well as in their vision of the global order they would like to see established the economies of both Europe and the US are highly developed and densely interwoven their societies are post industrial many social and economic trends converge similar too are the challenges to maintain security against threats emanating from other parts of the world divergences thus do not originate from conflicting material interests they arise from different perceptions of the nature and of threats from the outside world from how the two societies wish to define themselves through their internal and external policies the search for a distinct European or American identity fuels this discord therefore appeals to common merely material interests will not obliterate it the contributions to this book come from altogether twelve authors each of them addressing the issues from the perspective of his or her own discipline the book aims to reach not just academia but also beyond to those that are involved in actual international decision making

this is the first comprehensive practical handbook on the topic of environmental social governance ESG and its impact on the real estate industry the sustainability megatrend is still in its early stages in the real estate sector and there is a lack of standards practical examples and data the development is very dynamic and sometimes confusing and new complex requirements and regulations are constantly being added the authors an expert team of economists lawyers investors asset managers and engineers provide an overview of national and European regulatory requirements as well as current market developments they show what role ESG plays not only in the areas of new construction renovation and real estate management but also in investment processes and real estate valuations contents ESG and the real estate market ESG and regulatory environment ESG and real estate management ESG in urban and project development
