as in other fields in computer science certain objects of study can be synthesized from different basic elements in different ways and with
different resulting stabilities in subfields such as artificial intelligence computational logic and programming languages various relational and
functional ingredients and techniques have been tried for the synthesis of declarative programs this text considers the notions of relations
as found in logic programming or in relational databases and of functions as found in functional programming or in equational languages
we study a declarative integration which is tight because it takes place right at the level of these notions and which is still practical
because it preserves the advantages of the widely used relational and functional languages prolog and lisp the resulting relational and

functional language relfun is used here for exemplifying all integration principles

currently there is a movement in linguistics towards careful use of corpora in linguistic and text analysis which has involved both written and spoken corpora and those which combine spoken and written text most text analyses address written texts often literary works but detailed discussion of the language of a single oral text from multiple perspectives has rarely been published this book is among the first to integrate the analysis of the language of spoken and written texts it describes language as a network of functional relations involving a context which is also a network of functional relations the essays in part one present several perspectives on the theory of language as functional relations those in part two discuss a single oral text using a variety of functional perspectives all of the essays are by linguists interested in oral and written texts who have achieved international recognition in their fields illustrated in this book are cognitive social construction social praxis and anthropological approaches to the description of text

this unique text makes object relations and self psychology accessible to readers not familiar with recent psychoanalytic literature the issues ideas and controversies of these models of the person are clearly presented and readable
