en los primeros siglos de su modernización occidente describió y pensó la realidad social en términos políticos el desorden y el orden el rey y la nación el pueblo y la revolución luego con la revolución industrial el capitalismo se emancipó del poder político pensamos y actuamos entonces en nombre de un nuevo paradigma económico y social y hablamos de clases riquezas desigualdades y redistribución hoy en la hora de la economía global y el individualismo feroz la modernización ha hecho saltar en pedazos esos antiguos modelos de sociedad cada uno de nosotros inmerso en la producción y en la cultura de masas se esfuerza

por escapar de ellas y construirse como sujeto de su propia vida el nuevo paradigma con el que damos cuenta de estas preocupaciones nuevas es cultural de ello dan testimonio los grandes interrogantes de nuestra época qué lugar hay que conceder a las minorías debe la sexualidad situarse en el centro de todo asistimos al retorno de las religiones los antiguos paradigmas se dirigían hacia la conquista del mundo con el nuevo somos nosotros los protagonistas y mientras levantamos acta de la descomposición de un universo dirigido por los hombres entramos en una sociedad de mujeres como siempre en los libros de alain touraine la preocupación por dar forma teórica a nuestras prácticas sociales está fecundada por la vida tal como la vivimos y todo lo que se piensa remite a la experiencia cotidiana del universo globalizado en el que a partir de ahora vamos a movernos

la visión que la cultura ha ofrecido históricamente acerca de la realidad no ha contribuido a que los seres humanos hayan podido vivir en plenitud ni alcanzar su potencial en los últimos años se está produciendo una revolución del conocimiento que una vez comprendida puede transformar por completo al ser humano ofreciendo soluciones novedosas a los problemas personales y colectivos al haber identificado por fin sus causas primordiales con los conocimientos actuales ya no es necesario abandonar la racionalidad para poder comprender las realidades espirituales y las múltiples dimensiones que las componen esta nueva visión tiene el poder de acabar con el sufrimiento humano y aumentar la paz interior que es el anhelo principal de todo ser humano la nueva ciencia ve un diseño inteligente en todo el universo la física cuántica ha revolucionado el conocimiento sobre la realidad todos los científicos son conscientes en la actualidad de los enigmas cuánticos pero no todos están de acuerdo en cuanto a la forma de interpretarlos en este libro se ofrece una interpretación que puede llegar a explicarlos esta se basa en la idea de la ciencia dentro de la consciencia a lo largo del presente trabajo se hará evidente cómo esta interpretación es la que más se asemeja a la visión de la realidad que han ofrecido tanto la sabiduría perenne de la humanidad como las enseñanzas de las grandes maestros espirituales a través de la historia el propósito de este libro en su primera parte es describir brevemente qué dicen actualmente algunos de los principales pensadores de la ciencia y la filosofía acerca de la realidad y cómo esta nueva

visión del mundo parece estar convergiendo con lo que la sabiduría perenne de la humanidad ha afirmado a lo largo de la historia este libro también tiene el objetivo que se desarrollará en su segunda parte de tratar de entender lo que puede suponer para los humanos la exposición a este nuevo conocimiento y cuáles son los cambios en el interior de uno mismo que cualquiera puede llevar a cabo a la luz de esta información este libro pretende unir no separar ayudar a la humanidad a elevar su nivel de consciencia para vivir una existencia de mayor calidad en conformidad con su dimensión espiritual

la obra de sor juana muestra un interés muy marcado por el saber y por la descripción de los procesos de adquisición de conocimiento y el desarrollo de la capacidad intelectual humana en un contexto muy particular una sociedad colonial que intenta acceder a una serie de debates oficiales sobre la educación y modos de saber legítimos de la época esta obra estudia este tema en los escritos de sor juana en un deseo de contextualizar su tratamiento del conocimiento en una reflexión sobre el modo en que sus textos postulan la creación de una subjetividad intelectual femenina colonial y americana desde principios de siglo la lectura epistemológica de sor juana ha interpretado a la autora y a su obra dentro del modelo de descartes platón o aristóteles pero su condición femenina y colonial ha sido completamente excluida del análisis dejando a un lado uno de los aspectos fundamentales de estos textos quién habla y qué estrategias utiliza para autorizarse estudios más recientes de varias autoras ya han comenzado a explorar el entrecruce entre la epistemología y la condición femenina al mismo tiempo la reciente reconfiguración del campo de estudios coloniales ha desencadenado

un enriquecimiento en los estudios de la escritura colonial esta obra pues se centra en cómo el sujeto femenino colonial y criollo intenta autorizarse para entrar en un discurso tradicionalmente masculino y eurocéntrico sor juana s work shows a very marked interest in knowledge and the description of the processes of knowledge acquisition and the development of human intellectual capacity in a very particular context a colonial society that tries to access a series of official debates on education and legitimate ways of knowing of the time this work studies this theme in sor juana s writings in a desire to contextualise her treatment of knowledge in a reflection on the way in which her texts postulate the creation of a female colonial and american intellectual subjectivity since the beginning of the century the epistemological reading of sor juana has interpreted the author and her work within the model of descartes plato or aristotle but her feminine and colonial condition has been completely excluded from the analysis leaving aside one of the fundamental aspects of these texts who is speaking and what strategies they use to authorise themselves more recent studies by various female authors have already begun to explore the intersection between epistemology and the female condition at the same time the recent reconfiguration of the field of colonial studies has triggered an enrichment in colonial writing studies this work then focuses on how the female colonial and creole subject tries to authorise herself to enter a traditionally masculine and eurocentric discourse
