the idea of routines has been one of the most productive in organization studies finally we have a broad deep and authoritative survey of the exciting research it has inspired paul s adler university of southern california us this cutting edge multidisciplinary handbook comprises specially commissioned contributions surveying state of the art research on the concept of organizational routines an authoritative overview of the concept of organizational routines and its contributions to our understanding of organizations is presented to identify those contributions the role of organizational routines in such processes as organizational learning performance feedback and organizational memory is discussed to identify how the concept can

contribute to different disciplinary fields the expert authors review applications across a range of fields including political science sociology and accounting two chapters on research methods provide expert advice on the endeavour of experimental studies and empirical field studies of organizational routines overall this handbook contains articles that identify the role of organizational routines in processes underlying the stability and change of organizations show how the concept has been applied in different disciplinary fields and discuss methods for carrying out empirical research using the organizational routines concept because of the importance issues such as the stability and change of organizations have in organization theory and strategy this handbook will appeal to scholars and students in business and management in particular in organization theory organization behaviour and strategic management

organizational behavior is a unique text that thoroughly explores the topic of organizational behavior using a strengths based action oriented approach while integrating important topics such as leadership creativity and innovation and the global society authors afsaneh nahavandi robert b denhardt janet v denhardt and maria p aristigueta focus on the interactions among individuals groups and organizations to illustrate how various organizational behavior topics fit together this text challenges students to develop greater personal interpersonal and organizational skills in business environments as well as utilize their own strengths and the strengths of others to achieve organizational commitment and success

this handbook brings together a collection of leading international authors to reflect on the influence of central contributions or classics that have shaped the development of the field of public policy and administration the handbook reflects on a wide range of key contributions to the field selected on the basis of their international and wider disciplinary impact focusing on classics that contributed significantly to the field over the second half of the 20th century it offers insights into works that have explored aspects of the policy process of particular features of bureaucracy and of administrative and policy reforms each classic is discussed by a leading international scholars they offer unique insights into the ways in which individual classics have been received in scholarly debates and disciplines how classics have shaped evolving research agendas and how the individual classics continue to shape contemporary scholarly debates in doing so this volume offers a novel approach towards considering the various central contributions to the field the handbook offers students of public policy and administration state of the art insights into the enduring impact of key contributions to the field

organizational learning is an area of study that focuses on models and theories about the way an organization learns and adapts this volume investigates how various global and regional intergovernmental organizations states and national bureaucracies as well as nongovernmental organizations exploit experience and knowledge to change their understanding of the world their policies and their behaviours drawing upon and synthesizing organizational social and individual level learning theories the cases explicate various learning processes learning by illicit actors and deterrents to organizational learning the twelve case studies of this volume consider organizational learning associated with multiple issue areas including the united states

embargo against cuba food security in the european union the russian energy sector colombian drug trafficking terrorist groups the catholic church and foreign aid agencies based entirely on original research the volume is relevant to international relations comparative politics organizational sociology and policy studies

this volume addresses the question as to where international law fits into the making and implementation of foreign policy during an international crisis in which a state is considering and or may actually use force empirical literature on the law state behaviour relationship during international crises has not been able to answer this question adequately the limitations of existing empirical literature are identified as stemming from the limitations of existing positivist realist and functionalist theoretical explanations of the law state behaviour relationship these theoretical approaches which underpin existing empirical literature on international crises assume that international law matches what is referred to in this book as its rule book image this is the notion of international law as a finite set of objective politically neutral rules that can be applied so as to distinguish objectively between legal and illegal action the rule book image of international law does not match reality but the assumption that it is true underpins both theoretical literature and references to international law in political rhetoric the rule book image and the reality of international law have been reconciled within the theory of international law as ideology ili as developed by shirley scott this book hypothesises that an ili perspective offers a better explanation of the law state behaviour relationship during international crises than rival explanations grounded in positivism realism or functionalism four case studies of state behaviour of the us the soviet union and the prc during the korean war 1950 1953 of the us and uk during the suez crisis 1956 of the us and the soviet union during the cuban missile crisis 1962 and of the us and an alliance of latin american states during the dominican republic crisis 1965 are used to test the hypothesis the findings confirm the greater explanatory efficacy of ili and demonstrate that the significance of international law to foreign policy decision making during international crises is more than that of deterring the use of force as is assumed by rival theoretical approaches grounded in a rule book image of international law international law is shown to serve as a vehicle for inter state competition during international crises

for courses in public policy and policy analysis this readable and conceptual approach to public policy carefully balances theory and practice unlike most other texts which either lack theory or lack practicality the authors combine positivist and postpositivist perspectives on policy analysis supported by interesting and useful teaching cases fully classroom tested the text material explores the political basis of policy making and analysis with a careful eye toward students practical needs models and tools are provided along with the analytical knowledge necessary for policy analysis carefully structured chapters offer instructors maximum ease and flexibility in the classroom

includes proceedings of the association s annual convention

this book offers new and updated information on small arms production stockpiles transfers and

measures including a review of the international tracing instrument this year s thematic chapters examine issues such as the demand for weapons small arms and security sector reform and the economic cost of small arms use this edition also features case studies on small arms violence in papua new guinea and colombia armed groups in west africa and the lord s resistance army in northern uganda

this volume analyzes trade agreements in latin america since the mid 1980s and provides a theoretical framework that highlights the political economic tradeoffs entailed in different trade strategies formulated and pursued by different countries in the region it contains detailed empirically grounded studies of argentina brazil chile mexico and the mercosur block as a whole

this spirited narrative challenges students to think about the meaning of american history thoughtful inclusion of the lives of everyday people cultural diversity work and popular culture preserves the text s basic approach to american history as a story of all the american people the seventh edition maintains the emphasis on the unique social history of the united states and engages students through cutting edge research and scholarship new content includes expanded coverage of modern history post 1945 with discussion of foreign relations gender analysis and race and racial relations chapter based links to the world connect us history to global events and provide web links for further research while end of chapter legacies for a people and a nation focus on meaningful events or movements relevant to present day issues or controversies

this book offers a detailed examination of britain s role and influence in a pivotal period the post war international order had more or less taken shape by the mid 1950s but much was still unsettled and in these circumstances britain made the most of its opportunities even while accepting that it could not realistically expect to remain or ordinarily be treated as one of the big three world powers with the usa and soviet union obviously some adjustments were required in british priorities and methods in view of changing pressures and needs both at home and abroad but the continuing desire was to shore up britain s position in those parts of the world that were of special importance to british prestige power strategy prosperity and security in april 1957 the defence minister in the conservative government of the time duncan sandys emphasized to the house of commons that whether we like it or not we cannot go on devoting such a large part of our resources and in particular of manpower to defence sandys and his

colleagues tried to find a balance between commitments and resources how did they fare gradually britain did step back from some of its responsibilities overseas but defence expenditure remained high as did the overall costs of maintaining a global role denis healey who served as secretary of state for defence in the labour government of 1964 1970 later recalled that when i left office for the first time in its history britain was spending more on education than on defence britain had to compromise it had to be content with a lesser role on the international stage but did this mean that all influence was lost did britain cease to be powerful were its wishes and opinions no longer respected by others this book elucidates the motives behind key decisions discusses their far reaching consequences and explains why some options were taken and others were rejected it provides an integrated international history of the period between 1957 and 1970 many treatments of world history and international relations since world war ii are rather compartmentalized in nature usually along the lines of separate nation states and although this approach aids the organization and presentation of information it tends to hinder an overall appreciation of the international environment within which policy makers had to operate in order to understand why british leaders considered some options to be more attractive than others at vital moments we need to know more about the activities of the other great powers of the period therefore this book treats british policymaking as one component of an evolving international order in addition this book balances and to some extent corrects those accounts that exaggerate or otherwise misrepresent the nature of britain s decline as a world power overly negative interpretations are challenged british leaders were not uninformed or unreflective or unsuccessful in managing decline and sustaining britain s influence they did a better job than many historians have recognized the book is designed primarily for scholars and general readers who are interested in modern british history international relations post 1945 world history the end of the colonial empires and the history of the developing world

looks at national approaches to security and intelligence and the resulting impact on international cooperation this two volume work provides chapters on national cultures of security and intelligence that address common questions and themes

click here to preview chapter 1 as distinctive as it has been the bush administration s foreign policy still fits within hook and spanier s coherent theme of american exceptionalism chances are that the obama administration no matter how different it may be will also share this orientation in important ways thereby giving your students the historical context they need to understand not just the past eight years but the full history of american foreign policy since world war ii this revision to their classic text is much more than a simple update careful editing and streamlining of key chapters keep the book relevant and accessible while placing recent events in their proper perspective key revisions include previously separate chapters on u s relations with the developing world and u s involvement in vietnam have been combined to show the collision of east west and north south relations chapters on the wars in iraq and afghanistan are thoroughly updated full treatment is given to the current economic crisis a new

concluding chapter makes note of the changing of the guard from bush to the obama administration and looks ahead to obama s leadership strategic goals and policy initiatives students will also find abundant resources in new or updated tables figures and maps as well as a robust set of appendixes and end of chapter materials including a chronology of world events and annotated web resources

presents an examination of the conduct of american foreign policy in the second half of the twentieth century looking at cold war developments the post cold war period the war on terrorism and the problems facing the u s in the early 2000s

these challenges include finding an appropriate division of responsibility and labor between public and private sector actors crafting and coordinating a crisis response that addresses perceived threats to community values and avoids the twin perils of underreaction e g passivity or paralysis and overreaction e g crying wolf or political grandstanding coping with competence authority discrepancies under stress those who have expert knowledge of the technical issues rarely have the authority to make policy those who have the authority generally lack the technical expertise to comprehend the subtleties and uncertainties of the issues at stake and maintaining credibility and legitimacy when facing acute ill structured problems in politicized publicized and highly uncertain environments book jacket

this text is a brief introduction to the study of international relations written in a clear accessible style that speaks to students with a wide range of backgrounds and abilities this book encourages them to think critically about contemporary issues and form their own opinions
