the united nations arms trade treaty became binding international law in late 2014 and although

the text of the treaty is a relatively concise framework for assessing whether to authorize or deny proposed conventional weapons transfers by states parties there exists controversy as to the meaning of certain key provisions furthermore the treaty requires a national regulatory body to authorize proposed transfers of conventional weapons covered by the treaty but does not detail how such a body should be established and how it should effectively function the arms trade treaty a commentary explains in detail each of the treaty provisions the parameters for prohibitions or the denial of transfers international cooperation and assistance and implementation obligations and mechanisms as states ratify and implement the treaty over the next few years the commentary provides invaluable guidance to government officials commentators and scholars on the meaning of its contentious provisions this volume describes in detail which weapons are covered by the treaty and explains the different forms of transfer that the arms trade treaty regulates it covers international human rights trade disarmament humanitarian law criminal law and state to state use of force as well as the application of the treaty to non state actors

comprised of three sections this covers the nutrient dynamics and productivity of global agroecosystems it focuses on the major aspects that make up agroecosystems such as soils climate crops nutrient dynamics and productivity it introduces agroecosystems and describes global soil types that support vast crop belts then deals with the principles that drive crop growth nutrient dynamics and ecosystematic functions within any agroecosystem it also details the influence of agronomic practices and factors such as soil microbes organic matter crop genetic nature irrigation weeds and cropping systems that affect productivity of agroecosystems

chinese artists born after 1975 have grown up negotiating the extremes of an increasingly globalized but still censorious culture on off features the work of 50 chinese artists who together offer a collective portrait of this generation among them birdhead cheng ran jin shan and lee fuchun

this report looks at how technology and innovation achieves inclusive and sustainable industrial development isid its main finding is that isid is feasible and technology can simultaneously serve all three dimensions of sustainability including economic social and environmental rapid inclusive and sustainable industrialization can happen more frequently provided that policymakers firmly steer the industrialization process with opportune policies and avoid past mistakes in some cases the spread of technology has not materialized in concrete growth opportunities because of the lack of technological capabilities innovation needs to be supported by interventions strengthening the process from invention to adoption as capabilities are developed and high tech manufacturing sectors are created seeing higher rates of sustainable growth
