in the 1970s basil berstein s work on children s sociolinguistic codes and his formulation of the contexts in which they are transmitted were the most influential in the field however as diana adlam points out neither code nor context as bernstein saw them can be properly grasped until they are understood in interaction originally published in 1977 this collection of papers contains both theoretical and empirical investigations of bernstein s ideas and seeks to make that necessary connection the study as a whole is concerned primarily with basil bernstein s ideas on the relationship of different familial transmission systems to the way in which children learn to use language the theoretical chapter stresses bernstein s present emphasis on the semantic orientations which different children may be acquiring and discusses these ideas in relation to work being done elsewhere at the time by other sociolinguistics particularly in the united states the empirical chapters provide analyses of how children of different social backgrounds differ in their approach to language use and also show the structural relationship of talk across a variety of specific contexts today it can be read against its historical backdrop

operations management in context is a straightforward and accessible text which provides students with a good grounding in the theory and practice of operations management and its

role within organisations the structure is clear and logical leading the newcomer to the subject through the topics in a way to maximise comprehension highlighting key issues and using case studies and examples from business to contextualise learning chapters are structured to enable incremental and progressive learning with a logical development of the content each chapter is linked and ends with a summary of the key points met in the text to aid revision exercises and self assessment questions are included to reinforce learning and maintain variety with answers included at the end of the book the text is accompanied by a lecturer's supplement

explores various kinds of families and societies through the lens of social science theories and methods this book helps readers to learn how to integrate their personal family experiences and expectations into a broader social world

the oecd glossary contains a comprehensive set of over 6 700 definitions of key terminology concepts and commonly used acronyms derived from existing international statistical guidelines and recommendations

grahame clark's classic excavations at star carr in 1945-51 were a model for their time but left many important questions unanswered new research has shown that the site is almost 1000 years older than previously believed studies have demonstrated a complex and repeated pattern of occupation spanning at least three centuries and have documented evidence for the frequent and apparently deliberate burning of the local reedswamp vegetation to improve lake access and perhaps attract animal populations the new research has also revealed evidence for the construction of a substantial wooden trackway leading to the lake edge the oldest evidence for systematic carpentry so far documented in europe this report shows how scientific techniques and theoretical approaches can shed entirely new light on a seemingly well documented site

here is a comprehensive introduction to language disorders in children one whose two fold developmental contextual perspective acknowledges that children's language learning systems include not only their skills knowledge and biological abilities but also their language background family settings and the context in which they are attempting to learn language the text's primary focus is on perspectives from normal development and the bulk of the coverage is devoted to examination of expectations for early infant through toddler middle preschool through early elementary and later middle elementary through adolescent stages of learning language these developmentally geared divisions are then used to guide discussions of language assessment and intervention for children who are not learning language normally yet who have characteristics in common with their peers who are
