what we learned in the rainforest presents a surprising new business principle by applying strategies and practices gleaned from nature by emulating what it once sought to conquer business can adapt rapidly to changing market conditions and attain greater and more sustainable profits with clear direct language and dozens of real world examples kiuchi and shireman show how a company can become a complex living system that doesn t merely balance competing interests but truly integrates them examples from leading companies include how coca cola ceo doug daft uses diversity to drive sales how intel founder gordon moore creates profit by design how bill coors builds businesses on the theory that all waste is lost profit how shell profits as an industrial ecosystem what weyerhaeuser and activists learned from each other how dow earns 300 returns and dupont builds market share with eco effectiveness and more this book shows that the old model of business the

machine model that pitted business against nature is growing obsolete in the emerging economy businesses excel when they emulate what they once sought to conquer they maximize performance as they become like nature like a complex living system by moving beyond the industrial machine model and applying the dynamic principles of the rainforest instead business can learn how to create more profit than ever and to do so more sustainably written by two would be arch enemies a hard nosed ceo of a major corporation and a dedicated environmentalist this book doesn't just balance competing interests it integrates them into a truly revolutionary new paradigm kiuchi and shireman present numerous real world examples from leading companies business strategies and management practices that maximize business performance by all measures economic social and environmental they illustrate the powerful business model provided by nature for driving innovation increasing profit spurring growth and ensuring sustainability

this volume constitutes the refereed proceedings of the international conferences fgcn and dca 2012 held as part of the future generation information technology conference fgit 2012 kangwondo korea in december 2012 the papers presented were carefully reviewed and selected from numerous submissions and focus on the various aspects of grid and distributed computing industrial environment safety and health and computer graphics animation and game
