a selection of architecture landscape and urbanism works from aldayjover architecture and landscape an office based in barcelona spain and virginia in the united states a collection of projects designed from their local and territorial dna that respond in new ways to the global socio ecological crisis in which we have been in engaged with since the beginning of the 21st century featured works include public spaces architecture and urban studies that incorporate natural dynamics and that also emphasize recovering in some cases legal access among all citizens and equal access to the city and its opportunities the works presented are particularly renowned given their leadership role in a new approach to the relationship between cities and rivers in which natural dynamics become part of the public space eliminating the effect of catastrophe

this book looks at recent initiatives for river restoration and riverfront development intended to contribute to making asian cities resilient inclusive and less polluted it uses an interdisciplinary perspective to assert that insufficient consideration of social issues in the planning and management of urban riverscapes leads to social exclusion utilising diverse entry points and theoretical orientations every chapter of the volume contributes to the exploration of the way urban river restoration is entwined with questions around urban citizenship violation of international housing rights poverty and vulnerability livelihoods and the use of common property resources it explores the social aspects of well known cases and examples of river restoration projects from asian megacities such as lahore dhaka chennai ahmedabad bangkok manila and secondary cities in india while touching on the technical ecological and recreational aspects of urban river restoration and riverfront development the book focuses on social issues related to displacement contestations around land and water the right to adequate housing and the interconnected rights to livelihoods health and food security enriched with empirical evidence and theoretical underpinnings this book will be useful for students teachers and researchers of urban studies urban geography urban planning urban ecology sociology community development and policy and governance it will also provide valuable case material for practitioners in those disciplines

river cities in asia uncovers the intimate relationship between rivers and cities in asia from a multi disciplinary perspective in the humanities and the social sciences as rivers have shaped human settlement patterns economies culture and rituals so too have humans impacted the flow and health of rivers in asia the sheer scale of urbanization increases the urgency of addressing challenges facing urban rivers leading to the importance of historically socially and culturally relevant solutions however cities are also uneven landscapes of power affecting chances to achieve holistic ecological approaches the central premise of river cities in asia is that a river city is one where proximity between a river and a city exists across time and space natural and social dimensions recognition of these deep connections can help to better contextualize policy solutions aimed at rivers and their ecologies including human life

the introduction of sports and recreational facilities into natural environments calls for reflection on their impact on fragile ecosystems this book is unique in providing an interdisciplinary approach to the ecological restoration of urban and industrial degraded habitats and their use by nearby city dwellers for the first time ecologists sociologists and anthropologists have worked together on particularly sensitive ecosystems such as rivers and estuaries to propose recovery strategies that allow their basic ecological functions to be restored and which can benefit local populations through nature activities nonetheless the use of natural spaces calls for the building of sustainable towns this is why this book is distinctive in considering quality of life and well being as stated objectives of modern river towns recently leisure time has become a part of urban rhythms in order to favour personal development an extensive palette of leisure activities is considered by the authors bird watching entertainment sports culture many aspects including physical and psychological attributes in relation to the contemporary socio political fabric are dealt with while creating areas of freedom landscaping also induces certain forms of practice and encourages certain social skills conversely the book questions certain types of management based on mass consumption don t they in the end aim to satisfy needs that are impermanent and shallow the image of the contemporary town relies on urban

planning projects which in a global economy seek to capture the interest of tourists and local populations how can suitable diligent planning be successfully combined with both creative design and ecological care this book demonstrates how biology and sociology can and should work in harmony in order to promote an ecosystem approach to environmental management
