the globalization of hate internationalizing hate crime is the first book to examine the impact of globalization on our understanding of hate speech and hate crime bringing together internationally acclaimed scholars with researchers policy makers and practitioners from across the world it critically scrutinises the concept of hate crime as a global phenomenon seeking to examine whether hate crime can or should be conceptualised within an international framework and if so how this might be achieved beginning with the global dynamics of hate the contributions analyse whether hate crime can be defined globally whether universal principles can be applied to the phenomenon how hatred is spread and how it impacts upon our global society the middle portion of the book moves beyond the broader questions of globalisation to jurisdictional examples of how globalization impacts upon our understanding of and also our responses to hate crime the chapters explore in greater detail what is happening around the world and how the international concepts of hate crime are being operationalised locally drawing out the themes of globalization and internationalization that are relevant to hate crime as evidenced by a number of jurisdictions from europe the us asia and africa the final part of the book concludes with an examination of the different ways in which hate speech and hate crime is being combatted globally international law internet regulation and the use of restorative practices are evaluated as methods of addressing hate based conflict with the discussions drawn from existing frameworks as well as exploring normative standards for future international efforts taken together these innovative and insightful contributions offer a timely investigation into the effects of hate crime offering an interdisciplinary approach to tackling what is now a global issue it will be of interest to scholars and students of criminology sociology and criminal justice as well as criminal justice practitioners police officers and policy makers

this book seeks to understand how women judges are situated as legal knowers on the high court of australia by asking whether a near equal gender balance on the high court has disrupted the court s historically masculinist gender regime this book examines how the high court s gender regime operates once there is more than one woman on the bench it explores the following questions how have the court s gender relations accommodated the presence women on the bench how have the women themselves accommodated those pre existing gender relations how might legal judgments and

reasoning change as a result of changing gender dynamics on the bench to develop answers to these and other questions the book pursues a methodology that conceptualises the high court as an institution with a particular gender regime shaped historically by the dominant gender order of the wider society the intersection between the gendered individuals and the gendered institution in which they operate produces and reproduces that institution s gender regime hence the enquiry is not so much asking have women judges made a difference but rather is asking how should we understand women judges relationship with the law a relationship that is shaped as much by the individual judge as by the institutional context in which they operate scholars legal practitioners and researchers interested in judicial reasoning gender diversity and the legal profession gender and politics will be interested in this book because it breaks new ground as a case study of a court s gender regime at a particular time
