focusing on the significance of travel in joseph conrad e m forster d h lawrence henry james and edith wharton robert burden shows how travel enabled a new consciousness of mobility and borders during the modernist period for these authors burden suggests travel becomes a narrative paradigm and dominant trope by which they explore questions of identity and otherness related to deep seated concerns with the crisis of national cultural identity he pays particular attention to the important distinction between travel and tourism at the same time that he attends to the slippage between seeing and sightseeing between the local character and the stereotype between art and kitsch and between older and newer ways of storytelling in the representational crisis of modernism burden argues that the greater awareness of cultural difference that characterizes both the travel writing and fiction of these expatriate writers became a defining feature of literary modernism resulting in a consciousness of cultural difference that challenged the ethnographic project of empire

studies of the english gentleman have tended to focus mainly on the nineteenth century encouraging the implicit assumption that this influential literary trope has less resonance for twentieth century literature and culture christine berberich challenges this notion by showing that the english gentleman has proven to be a remarkably adaptable and relevant ideal that continues to influence not only literature but other forms of representation including the media and advertising industries focusing on siegfried sassoon anthony powell evelyn waugh and kazuo ishiguro whose

presentations of the gentlemanly ideal are analysed in their specific cultural historical and sociological contexts berberich pays particular attention to the role of nostalgia and its relationship to englishness though englishness and by extension the english gentleman continue to be linked to depictions of england as the green and pleasant land of imagined bygone days berberich counterbalances this perception by showing that the figure of the english gentleman is the medium through which these authors and many of their contemporaries critique the shifting mores of contemporary society twentieth century depictions of the gentleman thus have much to tell us about rapidly changing conceptions of national class and gender identity
