the literature on educational change has been dominated by research published in the established liberal democracies this volume examines educational change in south africa a country undergoing rapid social and political change and situated geographically historically and culturally in the south what are the meanings and processes of change how do we explain the contours and contexts of change what has changed what has remained the same

the past ten years in south africa has seen many changes in education the creation of a single department of education common examinations for all learners in public schools in the country a new outcomes based education curriculum which was introduced to learners in the general education and training phase since 1998 and will be introduced to the further education and training phase from 2006 to evaluate the success of these changes south african researchers still use the indicator of student achievement the matriculation examination is the visible high profile and public performance indicator every year parents learners teachers researchers government officials policymakers and the general public get involved in the debate around the matic examination with the most frequently asked questions being did the pass rate go up are standards dropping are the results real or have they been manipulated how is our education system doing are we meeting the development goals what should the matriculation examination of the future look like participants from government national and provincial

security of land tenure for the urban poor is now a major problem for developing cities in africa asia and latin america this book presents and analyzes the main conclusions of a comparative research programme on land tenure issues it looks at how solutions can be found and implemented to respond to the demands and needs of the majority of squatters and informal settlements and analyzes how urban stakeholders with different social legal and economic constraints find innovative and flexible

solutions the book is intended to fill a gap in the literature on comparative research on tenure policies and should be useful to researchers and professionals involved in defining and instigating tenure upgrading policies and programmes

this book explores how social and territorial boundaries have influenced the approaches and practices of the south africa police service saps by means of a historical analysis of south africa this book introduces a new concept police frontierism which illuminates the nature of the relationships between the police policing and boundaries and can potentially be used for future case study research drawing on a wealth of research this book examines how social and territorial boundaries strongly influenced police practices and behaviour in south africa and how social delineations amplify and distort existing police prejudices against those communities on the other side of the boundary focusing on cases of high density police operations public order policing and the recent policing of the covid 19 lockdown this book argues that poor economic conditions combined with an increased militarisation of the saps and a decline in public trust in the police will result in boundaries continuing to fundamentally inform police work in south africa this book will be of interest to scholars and students interested in policing in post colonial societies characterised by high levels of violence as well as police work and police militarization
