uprisings such as the tea party and occupy wall street signal a resurgence of populist politics in america pitting the people against the establishment in a struggle over control of democracy in the wake of its conservative capture during the nixon and reagan eras and given its increasing ubiquity as a mainstream buzzword of politicians and pundits democratic theorists and activists have been eager to abandon populism to right wing demagogues and mega media spin doctors decades of liberal scholarship have reinforced this shift turning the term populism into a pejorative in academic and public discourse at best they conclude that populism encourages an empty wish to express a unified popular will beyond the mediating institutions of government at worst it has been described as an antidemocratic temperament prone to fomenting backlash against elites and marginalized groups populism's power argues that such routine dismissals of populism reinforce liberalism as the end of democracy yet as long as democracy remains true to its meaning that is rule by the people democratic theorists and activists must be able to give an account of the people as collective actors without such an account of the people's power democracy's future seems fixed by the institutions of today's neoliberal managerial states and not by the always changing demographics of those who live within and across their borders laura grattan looks at how populism cultivates the aspirations of ordinary people to exercise power over their everyday lives and their collective fate in evaluating competing theories of populism she looks at a range of populist moments from cultural phenomena such as the chevrolet ad campaign for our country our truck to the music of leonard cohen and historical and contemporary populist movements including nineteenth century populism the tea party broad based community organizing and occupy wall street while she ultimately expresses ambivalence about both populism and democracy she reopens the idea that grassroots movements like the insurgent farmers and laborers new deal agitators and civil rights and new left actors of us history can play a key role in democratizing power and politics in america

advertising strategy provides students with the experience of an actively teaching professor at one of the top advertising programs in the country and a working creative director agency principle altstiel and grow get right to the point by stressing key principles illustrating them and then providing practical information students and working professionals can use unlike many books that focus

on only work created for large consumer accounts by mega agencies this text also covers business to business in house and small agency work key features up to date examples over half were produced in the last two years writing for the internet interactive marketing the most comprehensive and up to date general copywriting text that covers the internet diversity discussion a whole chapter is devoted to these issues plus examples and case histories related to issues of diversity are woven throughout the text war stories the authors tracked down some of the hottest professionals in the business and their anecdotes bring real world experience into each chapter they are part case history part lessons to be learned and sometimes very funny words of wisdom timely quotes from some of the most influential people in our business past and present these quotes bring key points to life in every chapter who s who short biographies of people mentioned in the book located at the end of each chapter these blurbs sometimes include very personal information provided directly by these people
