this author is onto something groundbreaking by combining literature counseling education and critical thinking dr jean kerney educational consultant chillicothe ohio the students and i experienced shocking revelations as they researched their selected celebrities as an instructor i saw students were excited about learning that each celebrity they chose had a story which inspired drive to reach their glory students had taken it at face value that these people s lives were always perfect secondly i think this curriculum project gave students much needed advice advice impacts differently when it comes from someone you idolize it gave these freshmen ideas of how to handle college and how to navigate issues in their lives most importantly this project allowed students to exhale they now know whatever their struggles they are not alone dr jessie broussard researcher and instructor university of louisiana lafayette when i was introduced to the reconstructing lives project i was delighted to have a new way to assess my students comprehension of teaching theories teacher candidates thought the theories were boring however they eventually found that connecting theories to their icons and later to themselves was meaningful the majority of my students felt the redemption that it brought them they didn t write it all in their papers rather they came to my office and explained what the project meant to them personally what surprised me most in 10 years of using the project was the fact that it was not only a measure of student learning but also a measure of how much i could teach them about theory about my life and about their own life success dr felicie barnes professor of education retired grambling state university companion workbook available at amazon com re make an icon so you can produce one

the process documented in this book from the inception of the project to the pursuit of a edd reflects not only my academic and professional journey but also the deeply personal

challenges i have faced along the way this path has been riddled with obstacles moments of doubt and painful realizations it is a raw vulnerable exploration of human complexity each page reveals not just professional milestones but the profound emotional landscape of personal transformation it tested my perseverance strained relationships on both sides and in some cases led to irreparable losses

to reclaim the public university is to focus our energies on teaching all our students well educating them for a new increasingly complicated age to deliver on this promise we must interrogate the general education we provide for our students for that is the vast unrecognized ground we stand on it is what students and faculty do most in common if we can get educating our students right generally and liberally then we will have laid a claim to what the public university needs to be

emphasizing the teacher s roles as guide and strategist this textbook provides first time teachers with examples activities cases and suggestions for instructional practice chapters address the role of reflection in teaching the creation of a classroom community social responsibility and scho

this book collects together approximately 200 descriptions and summaries of a wide range of projects carried out over nearly 10 years of nsf funded gender diversity in stem education programs that were set up to address the problems of women and girls in science and technology a good source of ideas see also the website
