we badly need new sources of clean energy to generate electricity heat and power
our industries homes and workplaces up to now we have relied on and used only
fossil fuels to power our industrial and domestic activities the byproducts of fossil
fuels include irreversible pollution and contamination of our earth climate change
global warming and increase in pathogenic and medication resistant diseases
exhaustible fossil fuels are expensive to produce and distribute and not everybody
can afford them why not switch to natural non polluting inexpensive inexhaustible
fuels such as solar wind water etc fuels this is the timely message contained in
twenty first century s fuel sufficiency roadmap you can make this message realisable
