from simon schuster and edited by morris weitz 20th century philosophy the analytic tradition is a collection of readings in the history of philosophy the full scope and impact of western philosophy from the presocratics to the important thinkers of the twentieth century are presented in this original paperback series

hermann lotze was a key figure in the philosophy of the second half of the 19th century influencing practically all leading philosophical schools of the late 19th and the early 20th century i the neo kantians ii brentano and his school of descriptive psychology iii the british idealists iv husserl s phenomenology v dilthey s philosophy of life vi frege s new logic vii the early cambridge analytic philosophy viii william james s pragmatism the book first presents the main ideas of hermann lotze s philosophy part i and then traces his influence on the descriptive psychology of franz brentano and carl stumpf part 2 and cambridge analytic philosophy part 3 in addition the book includes bertrand russell s conspectus of j e mctaggart s 1898 lectures on lotze

featuring twenty two chapters written by leading international scholars this major publication covers all the key figures and movements from frege to derrida and philosophy of language to feminist philosophy

columbia companion to twentieth century philosophies is the first guide to cover both the anglo american analytic and european continental traditions organized thematically the volume thoroughly discusses the major movements and fields of each tradition and features the contributions of highly distinguished specialists in their fields this book is divided into three sections the first is devoted to highlighting the multidimensional work of philosophers identified with the analytic tradition with nicholas rescher writing on neoidealism josephine donovan commenting on feminist philosophy tyler burge discussing the philosophy of language and mind and robert hanna reflecting on kant s legacy the second section presents the thought of those who identified themselves with the continental tradition featuring jean grondin on hermeneutics leonard lawlor on phenomenology charles scott on postmodernism and babette babich on the philosophy of science this volume also covers logical positivism naturalism pragmatism aesthetics existentialism marxism the frankfurt school structuralism psychoanalysis political philosophy ethics and the philosophy of religion the final section addresses concurrent trends in indian chinese japanese and african philosophy and a comprehensive introduction by the editor not only provides a thorough outline of the problems and issues of the analytic and continental traditions but also boldly challenges the conviction that the

two approaches must be rivals columbia companion to twentieth century philosophies is an invaluable overview of the ideas that have shaped a monumentally important century in the history of philosophy offering an unusually panoramic perspective that allows readers to form their own interpretations of original materials

this volume begins with the rise of german idealism and romanticism traces the developments of naturalism positivism and materialism and of later century attempts to combine idealist and naturalist modes of thought written by a team of leading international scholars this crucial period of philosophy is examined from the novel perspective of themes and lines of thought which cut across authors disciplines and national boundaries this fresh approach will open up new ways for specialists and students to conceptualise the history of 19th century thought within philosophy politics religious studies and literature

the founder of the school of logical positivism looks back on twentieth century western philosophy idiosyncratically stressing those developments and figures with which he is most in sympathy

this work is a two division study of twentieth century philosophies of history in europe fields engaged in the study are transcendental philosophy speculative metaphysics theology historiographical theory and intellectual history the main question concerns the historical finitude of history and its temporal horizon the work explores the unsolved consequences of g w f hegel s phenomenology of spirit 1807 and martin heidegger s being and time 1927 in twentieth century german and french philosophies of history

volume 9 of the routledge history of philosophy surveys ten key topics in the philosophy of science logic and mathematics in the twentieth century each of the essays is written by one of the world s leading experts in that field among the topics covered are the philosophy of logic of mathematics and of gottlob frege ludwig wittgenstein s tractatus a survey of logical positivism the philosophy of physics and of science probability theory cybernetics and an essay on the mechanist vitalist debates the volume also contains a helpful chronology to the major scientific and philosophical events in the twentieth century it also provides an extensive glossary of technical terms in the notes on major figures in these fields

read through the lens of a single key concept in twentieth century french philosophy that of the problem this book relates the concept to specific thinkers and situates it in relation both to the wider history of philosophy and contemporary concerns how exactly should the

notion of problems be understood what must a problem be in order to play an inaugurating role in thought does the word problem have a univocal sense what is at stake theoretically ethically politically and institutionally when philosophers use the word this book addresses these and other questions and is devoted to making historical and philosophical sense of the various uses and conceptualisations of notions of problems problematics and problematisations in twentieth century french thought in the process it augments our understanding of the philosophical programs of a number of recent french thinkers reconfigures our perception of the history and wider stakes of twentieth century french philosophy and reveals the ongoing theoretical richness and critical potential of the notion of the problem and its cognates working through the twentieth century and focussing on specific thinkers including foucault and deleuze this book will be of interest to all scholars of french philosophy this book was originally published as a special issue of *angelaki*

this collection features fourteen original essays divided into three thematic sections which explore the work of wilfrid sellars in relation to other twentieth century thinkers section i analyzes sellars s thought in light of his influential predecessors namely ludwig wittgenstein rudolf carnap c i lewis richard h onigswald john cook wilson and kazimierz ajdukiewicz the second group of essays explores from different perspectives sellars s place within the analytic tradition including the extent of his identification with analytic kantianism and analytic pragmatism the book s final section extracts some of the most significant lessons sellars s work has to offer for contemporary philosophy these chapters address his views on inference his views on truth and its connection to recent discussions about truth relativism and truth pluralism his conception of self knowledge and his theory of perceptual experience

major thinkers in various intellectual disciplines are featured in thinkers of the twentieth century your patrons will find this guide a perfect start to their studies on 450 intellectuals from philosophy theology literary criticism aesthetics history social sciences politics and the sciences entries are divided into two parts part one includes a biography complete bibliography and reading list of the major books and articles written about the entrant part two consists of an extended 1 000 to 3 000 word essay on the entrant these essays explain in clear comprehensible language the work of the entrant and his her influence on the intellectual of the 20th century

covers topics in philosophy psychology and scientific methods vols 31 include a bibliography of philosophy 1933

volume 10 of the routledge history of philosophy presents a historical survey of the central topics in twentieth century anglo american philosophy it chronicles what has been termed the linguistic turn in analytic philosophy and traces the influence the study of language has had on the main problems of philosophy each chapter contains an extensive bibliography of the major writings in the field all the essays present their large and complex topics in a clear and well organised way at the end the reader finds a helpful chronology of the major political scientific and philosophical events in the twentieth century and an extensive glossary of technical terms
