this 6 hour free course explored two ideas about health that it is an ever present factor in our lives and that it is difficult to define

the uniqueness of human dignity must remain at the centre of all efforts to achieve this goal they have to be maximised to serve members of society throughout their lives both for cure and prevention however preventive medicine can only be practised in partnership with individuals acting responsibly a healthcare system on a european scale is an enormous endeavour currently there are severe differences evident in the national provisions the dichotomy has to be addressed where individual national structures are oriented toward european standards while the care to the individual is delivered locally the

strategic vision aims to address the need for an overall strategy that can be adapted and implemented on the local bases it puts a specific emphasis upon cost containment new mechanisms have to be implemented to control the cost of healthcare clear rules for delivery are needed to prevent the advent of multi class healthcare this requires the development of a new underlying philosophic paradigm

critical government documents on health care reviews of many of the major health issues facing us today the book does not argue any one viewpoint instead it is an attempt to gather together information from as many sources as possible and presents arguments for and against the issues covered so that you the reader can come to your own conclusions areas covered include killer diseases such as heart disease cancer stroke respiratory diseases and obesity it discusses the arguments for and against immunization and looks at issues which impact your health such as the environment and pollution there is a detailed section on alzheimer s disease and other forms of dementia and the problems it poses for healthcare providers and caregivers and this is coupled with all the other issues that arise from a growing aging population finally the book discusses external threats such as pandemics ebola and other diseases that can rapidly spread from continent to continent and what is and should be done to contain them about the series thecritical documents series looks at critical issues of our times it provides non partisan information with no spin about critical players events and information from and about washington from as many sources as possible from scientific journals and government reports to political manifestos and lobby group publications it presents arguments for and against the issues covered so that you the reader can come to your own conclusions

covid 19 has shown how vulnerable society our economy and day to day lives are to illness but despite this we have not yet valued the pivotal role of good health our healthcare system is now an illness service with little resilience importing illness rather than exporting health into communities not leveraging the digital technology innovations harnessed in other industries whose health is it anyway outlines why health is truly our most untapped opportunity for prosperity and happiness in the 21st century individually and jointly as whole nations through collectively valuing health civil society and the private sector we can radically change the wider health environment which will pay off for all this book outlines how a 21st century healthcare system should expand the founding principles of the nhs from illness to a true health service and encompass a national care service the authors outline the entities and processes that could underpin a new total health system one that could serve to take us into a happier and more prosperous future

what is health what does health mean to people how do we make sense of health and experience it there are no simple answers to these questions health is complex subjective and varied drawing on theory research and contemporary debates ruth cross explores the nature of health in depth and challenges our thinking about it moving beyond taken for granted assumptions she gives the meaning of health its due attention exploring everyday perspectives as well as expert medical academic and policy understandings and approaches in doing so the book brings together different knowledge and expertise on health also considering the inextricable links between human and planetary health this book is important for all those working in the health field or training to do so seeking a broad understanding about health and all its complexity

whether there is a public health need for the containment and response to swine flu or an individual need to access health care across the border for a hip operation to alleviate pain the eu has an increasingly powerful role in the field of human health health law and policy is deeply tied into fundamental rights bioethics and values with important implications for individuals however it is also an expansive area of economic regulation of social and state arrangements the growing role of the eu in human health law and policy is contested particularly as it has implications for the fundamental rights and values that are enshrined in national health law and policy this book outlines through case studies how the expansion of eu power is taking place through law and policy in both public health and health care how is law and policy in the field of human health adopted who are the institutional actors involved and what is the impact of these developments for fundamental rights

scientific essay from the year 2015 in the subject psychology clinical psychology psychopathology prevention course ph d language english abstract in the present study an attempt was made to study the mental health status of adolescents belonging to the jorhat district of assam the sample of 500 adolescents 250 male and 250 female were taken from various schools of jorhat district tools used for the study was the mental health battery developed by dr arun kumar singh and dr alpana sengupta results clearly indicated that majority of the adolescents have average mental health and no significant difference was found in the adolescent boys and girls studying in the secondary schools of jorhat district

in this revolutionary self help guide two beloved native american wellness activists offer wisdom for achieving spiritual physical and emotional wellbeing rooted in indigenous ancestral knowledge when wellness teachers and husband wife duo chelsey luger and thosh collins founded their indigenous wellness initiative well for culture they extended an invitation to all to honor their whole self through native wellness philosophies and practices in reclaiming this ancient wisdom for health and wellbeing drawing from traditions spanning multiple tribes they developed the seven circles a holistic model for modern living rooted in timeless teachings from their ancestors luger and collins have introduced this universally adaptable template for living well to ivy league universities and corporations like nike adidas and google and now make it available to everyone in this wise guide the seven circles model comprises interconnected circles that keep all aspects of our lives in balance functioning in harmony with one another they are food movement sleep ceremony sacred space land community in the seven circles luger and collins share intimate stories from their life journeys growing up in tribal communities from the indigenous tradition of staying active and spiritually centered through running and dance to the universal indigenous emphasis on a light filled minimalist home to create sacred space along the way luger and collins invite readers to both adapt these teachings to their lives as well as do so without appropriating and erasing the original context representing a critical new ethos for the wellness space each chapter closes with practical advice on how to engage with the teachings as well as wisdom for keeping that particular circle in harmony with the others with warmth and generosity and 75 atmospheric photographs by collins throughout the seven circles teaches us how to connect with nature with our community and with ourselves and to integrate ancient indigenous philosophies of health and wellbeing into our own lives to find healing and balance
