dominick lacapra s history and its limits articulates the relations among intellectual history cultural history and critical theory examining the recent rise of practice theory and probing the limitations of prevalent forms of humanism lacapra focuses on the problem of understanding extreme cases specifically events and experiences involving violence and victimization he asks how historians treat and are simultaneously implicated in the traumatic processes they attempt to represent in addressing these questions he also investigates violence s impact on various types of writing and establishes a distinctive role for critical theory in the face of an insufficiently discriminating aesthetic of the sublime often unreflectively amalgamated with the uncanny in history and its limits lacapra inquires into the related phenomenon of a turn to the postsecular even the messianic or the miraculous in recent theoretical discussions of extreme events by such prominent figures as giorgio agamben eric l santner and slavoj zizek in a related vein he

discusses martin heidegger s evocative if not enchanting understanding of the origin of the work of art lacapra subjects to critical scrutiny the sometimes internally divided way in which violence has been valorized in sacrificial regenerative or redemptive terms by a series of important modern intellectuals on both the far right and the far left including georges sorel the early walter benjamin georges bataille frantz fanon and ernst jünger violence and victimization are prominent in the relation between the human and the animal lacapra questions prevalent anthropocentrism evident even in theorists of the posthuman and the long standing quest for a decisive criterion separating or dividing the human from the animal lacapra regards this attempt to fix the difference as misguided and potentially dangerous because it renders insufficiently problematic the manner in which humans treat other animals and interact with the environment in raising the issue of desirable transformations in modernity history and its limits examines the legitimacy of normative limits necessary for life in common and explores the disconcerting role of transgressive initiatives beyond limits including limits blocking the recognition that humans are themselves animals

medical confidentiality is universally recognised as a value worth protecting however difficulties arise when confidential medical information becomes relevant in the context of crime prevention and criminal prosecution should medical confidentiality be upheld where the physician holds information which is essential for the investigation of a serious crime for establishing the truth in a criminal trial for an accused s defence or for the prevention of a criminal offence and according to which criteria should such decisions be made based on an examination of different approaches in medical ethics and a comparison of the relevant law of france germany england and wales and the us this book analyses how a balance of the competing interests can best be struck
