released to the public for the first time writings by the incomparable barton biggs long considered one of the best brains on wall street barton biggs acquired the stature of a legend within his lifetime among his many coups he accurately called the rise and fall of the dot com market and was an energetic promoter of emerging markets including china well before american businesses began flocking there and he made vast fortunes for his clients in the process but as this fascinating book confirms it wasn't biggs's genius as a market analyst and hedge fund manager alone that made him special the product of a keen and broad ranging intellect in full command of his subjects and the english language the letters compiled in this volume leave no doubt that barton biggs was one of the most interesting observers of wall street the financial world and the human comedy ever to set pen to paper released from morgan stanley's archives and made public for the first time the letters compiled in this volume add new luster to biggs's reputation as a first class finance author address the most essential aspects of high frequency trading from formulation of ideas to performance evaluation shares biggs's fascinating insights and uncannily accurate predictions about an array of economic and financial topics liberally peppered with historical references and wry humor organized thematically the letters showcase barton biggs's observations on finance economics and the stock market from 1980 to 2003

it was the biggest investment in the history of morgan stanley's 100 billion real estate fund business it was one of the largest deals in the history of australian property in 2007 morgan stanley bought investa property trust for more than 6.5 billion in less than a year the investment was in trouble scott macdonald an american ceo with no prior experience in australia agreed to meet with the company and morgan stanley executives in sydney for one week in 2008 he returned home more than five years later after guiding investa through its perilous journey to survival the company moved from crisis to crisis from 2008

through 2012 sometimes avoiding insolvency by hours the drama of corporate survival is played against the backdrop of the global financial crisis the story of corporate struggle draws upon scott macdonald's personal experiences as chapters alternate between his life growing up and the fight to save investa his career includes an amazing range of experiences from fortune telling street sweeper and corporate ceo using stories and antidotes from every stage of his life the investa story is personalized and much more than a business memoir

in march 2005 the business world woke up to an unprecedented full page ad in the wall street journal calling for the removal of morgan stanley's ceo less than four months later a group of eight retired multimillionaire executives had orchestrated a stunning revolt within the most prestigious and until recently most successful financial services firm on wall street now acclaimed journalist and historian patricia beard brings together the entire behind the scenes story exposing the tale that shook high finance this riveting real life thriller is a must read book for anyone who wants to understand the past present and future of american business

first class lies morgan stanley's legacy of control discover the untold story of morgan stanley one of the most powerful and controversial financial institutions on wall street first class lies morgan stanley's legacy of control takes readers behind the closed doors of corporate boardrooms political backchannels and high stakes deal rooms to expose the epic rise internal power battles and near collapse of this iconic investment bank from its origins after the great depression to its role in the 2008 financial crisis and its modern transformation under james gorman this meticulously researched and grippingly written book unpacks the secretive split from j p morgan and the founding of morgan stanley cultural wars between elite bankers and consumer finance executives the bloodless coups and boardroom showdowns that rocked the firm morgan stanley's risky bets on subprime mortgages and the crash that followed the reinvention of the firm into a wealth management giant ideal for readers who love financial thrillers corporate dramas and economic history this book combines insider insight with bold storytelling if you're a fan of the big short barbarians at the gate or too big to fail you'll be riveted by first class lies morgan stanley wall street investment banking financial crisis corporate power economic history subprime mortgages take a seat at the table where fortunes are made careers are broken and first class lies shape the world

the inside story of the power struggle that rocked wall street's most prestigious financial institution what began with a shot over the bow ended in a shocking coup d'etat in less

than four months a group of eight retired executives orchestrated a stunning revolt within morgan stanley the venerable and until recently most successful financial services firm on wall street now acclaimed journalist and historian patricia beard brings together the entire behind the scenes story in blue blood and mutiny a real life business thriller exposing the tale that shook high finance in march 2005 the business world woke up to an unprecedented full page ad in the wall street journal calling for the removal of morgan stanley s ceo it was paid for by a cohort of eight former morgan stanley executives including an ex chairman and an ex president who soon would be dubbed the eight grumpy old men their target was ceo philip purcell a midwesterner who had come to power following morgan stanley s 1997 merger with dean witter discover where purcell had been chief executive in his eight years as ceo purcell had presided over a 50 percent decline in stock price since its peak in 2000 and a series of high profile government and civil lawsuits that had tarnished the company s once sterling reputation just a few months after the journal ad purcell would retire under pressure and former president john mack who had been pushed out by purcell was appointed ceo the eight grumpy old men won the battle the revolt of the eight is about more than the stock price or any bottom line metrics it signals a clash of cultures and a battle for the soul of american business since its founding morgan stanley has been an elite enterprise guided by j p morgan jr s motto a first class business in a first class way the house of morgan stood for something larger than success with honor its ethos was unique some would say sacred and the eight retired executives believed this ideal had been undermined during purcell s reign opening the long closed doors of a bastion of wall street that has maintained the strictest privacy until now blue blood and mutiny weaves the history of morgan stanley with the inside story of the fight for dominance between two competing business cultures one the collegial meritocracy handed down from the days of j p morgan and the other a cold contemporary corporate model here is the season s must read book for anyone who wants to understand the future of american business
