shortlisted for the duff cooper prize 2022 a financial times best history book of 2022 rigorous deft and entertaining a sparkling read the spectator the ride is thrilling a work of serious scholarship sunday telegraph for centuries ferdinand magellan has been celebrated as a hero a noble adventurer who circumnavigated the globe in an extraordinary feat of human bravery a paragon of daring and chivalry now historian

felipe fernández armesto draws on extensive and meticulous research to conduct a dazzling investigation into magellan's life, his character and his ill-fated voyage. he reveals that magellan did not attempt much less accomplish a journey around the globe and that in his own lifetime the explorer was abhorred as a traitor, reviled as a tyrant and dismissed as a failure. fernández armesto probes the passions and tensions that drove magellan to adventure and drew him to disaster: the pride that became arrogance, audacity that became recklessness, determination that became ruthlessness, romanticism that became irresponsibility and superficial piety that became in adversity irrational exaltation. and as the real magellan emerges, so too do his true ambitions, focused less on circumnavigating the world or cornering the global spice market than on exploiting filipino gold, offering up a stranger, darker and even more compelling narrative than the fictional version that has been glorified for half a millennium. straits untangles the myths that made magellan a hero.

the first in-depth study in english to analyze post-utopian historical novels written during and in the wake of brutal latin american dictatorships and authoritarian regimes during neoliberal reforms in the 1980s and 1990s, murder, repression and exile had reduced the number of intellectuals and leftists and many succumbed to or were coopted by market forces and ideologies. the opposition to the economic violence of neoliberal projects lacked a united front and feasible alternatives to the contemporary order no longer seemed to exist. in this context, some latin american literary intellectuals penned post-utopian historical novels as a means to reconstruct memory of significant moments in national history through the distortion and superimposition of distinct genres within the narratives. authors of post-utopian historical novels incorporated literary, cultural and political traditions to expose contemporary challenges that were rooted in unresolved past conflicts. in anything but novel, jennie irene daniels closely examines four post-utopian novels: césar aira's *ema la cautiva*, rubem fonseca's *o selvagem da Ópera*, josé miguel varas's *el correo de bagdad* and santiago páez's *crónicas del breve reino* to make their contributions more accessible and to synthesize and highlight the literary and social interventions they make. although the countries the novels focus on—argentina, brazil, chile and ecuador—differ widely in politics, regime changes, historical precedents, geography and demographics, the development of a shared subgenre among the literary elite suggests a common experience and interpretation of contemporary events across latin america. these novels complement one another, extending shared themes and critiques. daniels argues the novels demonstrate that alternatives exist to neoliberalism even in times when it appears there are none. another contribution of these novels is their repositioning of the latin american literary intellectuals who have advocated for the marginalized in their societies; their work has opened new avenues and developed
