this is holmes own commentary on his masterpiece the science of mind as such it may be his most important book besides the textbook these short pieces abound in counsel and guidance in metaphysics spirituality and healing here too is the history of new thought and religious science insights into the mystics pointers on treatment and analysis of our fears and insecurities founder of the worldwide religious science movement formulator of the science of mind philosophy and author of metaphysical bestsellers dr holmes continually sought to simplify his teaching and get people to use it in these pages he speaks directly to you in a one on one tutorial

the founder of the united church of religious science an international religious movement presents his basic spiritual tenets showing readers how to get in touch with nature s forces and god s healing power amazon com

a brief account of the science of mind by the man who formulated it ernest holmes has condensed the wisdom of his classic science of mind into this warm yet penetrating statement the science of mind is the study of life and the nature of the laws of thought in a spiritual universe this philosophy believes there is one infinite mind that includes all there is whether it be human intelligence or the invisible presence of god and is built upon the premise that we are living in a spiritual universe whose sole government is one of harmony where the use of right ideas is the enforcement of its law in 1927 a teacher writer and lecturer by the name of ernest holmes defined and established the science of mind philosophy by uncovering a clear and simple method he discovered while researching the wisdom of the ages from many disciplines this newfound practical and spiritual approach to living an abundant life evolved into what is now the science of mind textbook which has

been the cornerstone to religious science churches and centers for spiritual living around the world over the course of his life the textbook became a beacon of light to millions of readers and followers but to others the 600 page tom presented itself as an obstacle to beginners simply because of its intimidating size in what turned out to be one of his last books before his death in 1960 holmes published this introduction after its initial release as an article in the science of mind magazine to help individuals easily understand the concepts before taking the first steps of their new spiritual journey

first published in 1926 the science of mind proposes a science with a new relationship between humans and god by ernest holmes an american new thought writer teacher and leader he was the founder of a spiritual movement known as religious science part of the greater new thought movement it declares that people can change their lives by vigorously engaging their minds in religious activities holmes believed that science philosophy and religion could all be connected for the betterment of each individual according to holmes god is a never ending energy source present in the whole universe through prayer a person can reach god and heal spiritual mental and physical wounds he believed that god s action and will occurred in the present and that with each and every choice a person makes they are creating the eternal now this thought was revolutionary especially to new age philosophy top 10 hardcover library books a wrinkle in time 9789389440188 how to stop worrying and start living 9789387669161 their eyes were watching god 9789389440577 the magic of believing 9789388118217 zen in the art of archery 9789354990298 a cloud by day a fire by night 9789391181611 siddhartha by hermann hesse 9789387669116 the richest man in babylon 9789354990717 the book of five rings 9789389440553 the knowledge of the holy 9789389157239 note search by isbn

b k chandra shekhar is a rajyogi memory trainer and one of the faculties of security services wing of rajyoga education and research foundation an organisation recognised by the ministry of human resource development government of india renowned for its value based education he is the author of the book enhance your memory power of the third eye he specializes in the removing exam anxiety stress management self empowerment and practical application of rajyoga for healthy and happy life he applied the techniques of rajyoga in his practical life to get a complete healing from life threatening diseases like cancer hepatitis c fibrosis of lever and diabetes special features this book reveals the mystery of mind in a simple language it demystifies the hidden potentials of the self stepwise it provides a to z techniques of stress management self motivation healthy living and maintaining a stable mind it also provides the techniques of healing ailing bodies through the power of mind and rajyoga meditation it explains the simple truth of life and rejuvenates the spirit

while the foundation and principles of science of mind are well established in the textbook here you ll find the guidelines applications topics and lessons conveyed in the personal style that filled dr holmes classes and sunday morning meetings to overflowing

a philosophy a faith a way of life dust jacket

the science of mind is a great book about spirituality that was written by a great spiritual guide in it ernest holmes talks about how our thoughts connect us to a creative law in the world he shows us how to put spiritual ideas into practice in our daily lives he shows how man can shape his own fate and decide what kind of life he wants to live he says that the mind of god and the mind of man are linked since god s mind is infinite this means that man s mind has an infinite number of ways to show himself it s a book that anyone who wants to really understand ideas should read and study over and over again since it talks about many different religious and spiritual ideas it goes far beyond the simple goal of getting rich spilling over into ideas like god and the divine reason

a brief account of the science of mind by the man who formulated it ernest holmes has condensed the wisdom of his classic science of mind into this warm yet penetrating statement

2011 reprint of 1926 edition full facsimile of the original edition not reproduced with optical recognition software ernest shurtleff holmes 1887 1960 was an american writer and spiritual teacher he was the founder of a movement known as religious science also known as science of mind a part of the new thought movement he was the author of the science of mind and numerous other metaphysical books his books remain in print and the principles he taught as science of mind have inspired and influenced many generations of metaphysical students and teachers his influence beyond new thought can be seen in the self help movement the science of mind is his most influential work herein is reprinted in full text the 1926 edition of holme s the science of mind

more than 300 solutions to real life situations from the creator of the science of mind philosophy ernest holmes s science of mind philosophy has reached millions of students through his books and the hundreds of spiritual centers across the united states and canada his main text the science of mind has sold hundreds of thousands of copies and continues to ship more than 10 000 copies each year now comes a reissue of one of holmes s most user friendly works questions and answers on the science of mind designed to be used as a guidebook it contains spiritual answers to more than three hundred of life s most important and puzzling questions on topics such as how to deal with specific health challenges what to do when experiencing a lack of finances how to eliminate fear stress or distress of any kind the nature of god the existence of evil the role of fate what to do in times of despair or fear how to overcome resentment how to break bad habits and much more

first published in 1926 the science of mind is the religious theory of ernest shurtleff holmes which posits that people can transform their lives by actively engaging their minds into religious activities holmes was the creator of religious science a spiritual movement

belonging to the larger new thought movement which believed that science philosophy and religion could all be connected for the betterment of each individual according to holmes god is a never ending energy source present in the whole universe through prayer a person can reach god and heal spiritual mental and physical wounds he believed that god s action and will occurred in the present and that with each and every choice a person makes they are creating the eternal now holmes argued that the universe was neutral allowing each person to dictate positive and negative feelings in their life allowing them to create their own individual reality while quite a revolutionary idea the science of mind has been used as an inspirational tool for those who feel spiritually lost though not his first work describing the religious science movement holmes the science of mind is often hailed as the text which best illustrates the philosophy s beliefs this edition is printed on premium acid free paper and reproduces the original 1926 edition

celebrating 75 years of changing the world one of the most important spiritual manifestos of modern times ernest holmes s magnum opus in a gorgeous leather bound edition the science of mind has been heralded as one of the most influential and widely read works of spiritual thought in the last century hundreds of thousands of copies in all editions have been sold over the years and millions of people have benefited from the wisdom in this book a book that sparked a spiritual revolution now tarcher penguin will be offering the most complete and beautifully packaged leather bound edition in time to commemorate the 75th anniversary of the 1938 edition of the science of mind this edition will include black bonded leather binding 4 color designed box gilded edges ribbon marker concordance and more

you are about to start on the most interesting quest the human mind has ever made the discovery of the life principle the way it works and your relationship to it you are about to make the greatest discovery of your life which is how to use the creative power of your thought for definite purposes purposes which will benefit you your family and your friends you are about to engage in a study of the science of mind which deals with a principle and a power in the universe as immediate as your own breath of necessity such a study to which you must give your complete attention something that you just enthusiastically enter into all the while it will be something that brings a daily satisfaction a sense of well being and the gratification of knowing that you are in harmony with the power that creates and sustains everything

ernest shurtleff holmes january 21 1887 april 7 1960 was an american new thought writer teacher and leader he was the founder of a spiritual movement known as religious science part of the greater new thought movement whose spiritual philosophy is known as the science of mind he was the author of the science of mind and numerous other metaphysical books and the founder of science of mind magazine in continuous publication since 1927 his books remain in print and the principles he taught as science of mind have inspired and influenced many generations of metaphysical students and teachers holmes had previously
