antitrust and competition law is a fast moving area of law and the subject of extensive academic research the aim of this volume is to select articles as tools for understanding how antitrust and competition law is applied to unilateral conduct which is harmful to the consumer and to the competitiveness of the market the articles examine the meaning of dominance and monopolisation and show that although legal and economic rules have been developed to establish whether undertakings hold such strong market positions it

is often difficult to determine with certainty that the undertaking being investigated meets the threshold the various debates on pricing and non pricing conduct are also represented as are the conflicts that have arisen regarding the exercise of intellectual property rights by powerful undertakings particularly in the context of the new economies the volume includes scholarly articles published on both sides of the atlantic and enables a greater understanding of the application of antitrust and competition law from the point of view of economics and politics

a valuable guide to major issues in the field Gareth Morgan University of York the handbook of organization studies completes the trilogy begun by two previous pathbreaking handbooks March's handbook of organizations 1965 and Nystrom and Starbuck's handbook of organizational design 1981 like the earlier two handbooks the editors have recruited an international group of up and coming junior scholars as well as seasoned veterans and the result is stunning a gold mine of ideas i wholeheartedly recommend this book Howard E. Aldrich Kenan professor of sociology University of Northern Carolina at Chapel Hill a marvellous collection of up to date scholarship on organization studies from a whole array of perspectives a must for any organization researcher's bookshelf Koya Azumi professor of sociology International Christian University Tokyo the handbook of organization studies provides a much needed synthesis of the literature and knowledge about organizations and organizing i recommend it as an essential reference book for business schools as well as social science departments professor Jean Claude Thoenig Insead Fontainebleau France this book is the most significant contribution to the study of organizations to have appeared in one volume since the classic handbook of organizations which James March edited thirty years ago this handbook of organization studies should remain relevant for at least as long as its predecessor John Child Guinness professor of management studies The Judge Institute of Management Studies University of Cambridge the handbook of organization studies is a stunning accomplishment the volume forces relics of an earlier era like me to rethink the fields of organizations and organization studies it captures the exciting differences that are part of our literature in one place the volume undoubtedly will stimulate new enquiries which will require another such handbook in another three decades Richard H. Hall distinguished service professor department of sociology and management State University of New York Albany this book will stimulate many exciting conversations among readers that would not have occurred without it it is creative in design and conception and the quality is superb definitely it will appeal to those who wish to celebrate the diversity of perspectives and issues in the field and outflank those who wish to imagine that there is nothing of value outside the mainstream professor John M. Jermier University of South Florida Tampa this unique handbook presents a major retrospective and prospective overview of the field of organization studies drawing on

the talents of an outstanding team of international contributors the editors have assembled assessed and synthesized the key strands in past and current theory the text moves from the general to the specific from the past to the present and from the present to the future addressing the established traditions as well as newer foci of inquiry it examines the questions that the fin de siècle poses for organizations and for ourselves as organization members and researchers central to the enterprise has been a concern to reflect and honour the manifest diversity of the field including recognition of the extent to which the very notion of a single field of organization studies is itself debated while also directing attention to the points of intersection and potential dialogue across the numerous conversations that make up this area of study
