U 505 was the first enemy warship the US Navy captured at sea since 1812. This is a new account of how Captain Gallery planned and executed the raid on his own initiative and how his success almost endangered the war against the U-boats. On June 4, 1944, a US Navy antisubmarine task group in the Atlantic captured an enemy U-boat on the high seas. It was not the first time the Allies had taken a German U-boat as a prize, but the capture of U 505 was different. Captain Gallery and his task group 223 devised a risky plan to capture scuttled U-boats. This book analyses in detail Captain Gallery's dangerous strategy using contemporary sources to explore why he thought the reward was worth the risk instead of attempting to sink the next U-boat that surfaced. Among them, a destroyer escort would send off its whaleboat, and everyone else was to smother the U-boat with light gunfire to encourage its crew to abandon quickly. Unaware that the Allies had already cracked the German's codes and the capture of a U-boat could endanger that secret, Captain Gallery hoped to capture the vessel's codes and coding equipment to read U-boat message traffic. The plan culminated in the capture of U 505 in early June, which nearly caused the exposure of the Bletchley Park codebreaking secret. Featuring contemporary photographs, specially commissioned artwork, and 3D maps, this book is a fascinating exploration of one of the most controversial and dangerous raids which could have changed the outcome of World War II as we know it.

Only Greg Rucka, the thriller genre's most fearless writer, would dare create a spy so edgy, so explosive, so extreme. She should be rated X. Tara Chace was once the most dangerous woman alive, and now that the international spy network thinks she's as good as dead, she's even more dangerous than ever. Only one thing could coax Tara back into the game: a chance to vindicate herself. The torture and execution of Dina Malikov has set off a cutthroat grab for power in strategically crucial Uzbekistan. Tara's job is to slip into the country and extract Dina's pro-Western husband and their young son before they are murdered by his ruthless sister. But there are a couple of wild cards in the deck, including a missing mobile weapons system that can bring down a commercial airliner, not to mention powerful political careers now as she vanishes into hostile territory with a man who may or may not be what he

seems tara is going to find out that the war on terror is more terrifying than anyone knows for in a battle where betrayal is a conventional weapon loyalty is a weakness and anyone even a child is a legitimate target it's every spy every woman for herself combine a thriller that defies every expectation with a heroine for whom nothing is out of bounds and the result is private wars a suspense novel so explosively realistic it should be classified
