moving and learning across the curriculum more than 300 activities and games to make learning fun is now out in its 2nd edition movement is the young child s preferred method of learning this is because when a child physically experiences concepts they understand them more completely and retain the information longer retention has been proven to increase when children s senses are involved in the learning process and this book provides hundreds of activities that help to teach major concepts in the content areas of art language arts math music science and social studies the domains of child development are completely intertwined in the early years making it important to incorporate them all throughout the

learning process this book will show the early childhood professional how to educate the whole child covering all of the domains of child development which include physical social emotional and cognitive to truly educate the child they must be recognized as thinking feeling moving human beings with the need to experience with all of their senses moving and learning across the curriculum 2e provides the activities to achieve that level of learning with features including detailed lesson plans outdoor alternatives updated resources and enhanced curriculum connectors with additional suggestions for children's literature and music an ideal resource for the early childhood professional this book offers everything needed to use movement as a teaching tool

this book language across the curriculum provides all the essential components a teacher trainee practising teacher and researcher needs to equip himself or herself while learning to teach practising in the classroom and for researching the centrality of language in learning the content subject the author has done the job of addressing both the theoretical and classroom centred components in order to make the users of the book understand the concepts in lac and to implement in the classroom the chapters are divided in such a way that they move from laying foundations on the concepts and taking forward to addressing the content specific issues and their integrations in each subject features the book delves into the ideas and objectives of how language and learning are intertwined ways and means of implementing language across the curriculum through thematic approach understanding the linguistics features of language use in content subjects with the newer trends and developments in educational theory and practice this book serves many a purpose to understand the course objectives content and practices of lac ways and means of planning and realising lac at the school and classroom level this book would be of use for prospective teachers at all levels primary secondary and senior secondary level teacher educators who shape the teachers practising teachers and researchers in education

br table of contents 1 language and learning in multilingual contexts 2 language across the curriculum ways and means of implementation 3 nature of classroom discourse 4 language across the subjects 5 reading across the curriculum 6 academic language writing across the curriculum 7 language across the curriculum materials resources and assessment

former president of naecte and co author of the young child as scientist christine chaille brings a reggio emilia inspired fresh friendly and innovative introduction to constructivist curriculum for educators in preschool to primary classrooms designed to be a readable and user friendly source for teachers who are looking for guidance and inspiration when incorporating constructivism and reggio emilia ideas into their classroom the chapters in this book are organized into two categories introductory chapters and big idea chapters introductory chapters provide the broad theoretical framework and an overview of constructivist practice and reggio emilia ideas the big idea chapters present one of the seven big ideas light balance cause and effect transformation sound zooming in and out and upside down as springboards to help teachers build an interdisciplinary child centered curriculum big idea chapters also bring theory into practice by incorporating scenarios of real teachers implementing the projects discussed in their classrooms by balancing theory and the realities of the classroom this book helps teachers challenge themselves and their

students with strategies for infusing new curriculum approaches in their classrooms without sacrificing what they need to accomplish in the process

this volume focuses on an inclusive pedagogical approach for enhancing teaching and learning in key areas of curriculum including literacy mathematics science social studies and the arts

there is no longer any doubt about the place that oral language has in problem solving in developing literacy and the intellect and in acquiring knowledge

this book will be of interest to a broad readership regardless of whether they have a background in sociolinguistics functional linguistics or genre theories it presents an accessible meta language i e a language for talking about language that is workable and usable for teachers and researchers from both language and content backgrounds thus facilitating collaboration across content and language subject panels chapters 1 to 3 lay the theoretical foundation of this common meta language by critically reviewing systematically presenting and integrating key theoretical resources for teachers and researchers in this field in turn chapters 4 to 7 focus on issues in pedagogy and assessment and on school based approaches to lac and clil drawing on both research studies and the experiences of front line teachers and school administrators chapter 8 provides a critical and reflexive angle on the field by asking difficult questions regarding how lac and clil are often situated in contexts characterized by inequality of access to the linguistic and cultural capitals where the local languages of the students are usually neglected or viewed unfavourably in relation to the l2 in mainstream society and where teachers are usually positioned as recipients of knowledge rather than makers of knowledge in closing chapter 9 reviews the state of the art in the field and proposes directions for future inquiry

moving and learning across the curriculum gives children the opportunity to physically experience concepts and themes common to the six major content areas of art language mathematics music science and social studies they can process the concepts using a multimodal approach that ensures greater comprehension and retention children are experiential learners acquiring knowledge through play experimentation exploration and discovery moving and learning across the curriculum offers 315 activities and games that help them do just that this is an ideal resource for educators who understand movement as a learning tool

genre across the curriculum will function as a good textbook one not for the student but for the teacher and one with an eye on the context of writing here you will find models of practice descriptions written by teachers who have integrated the teaching of genre into their pedagogy in ways that both support and empower the student writer while authors here look at courses across disciplines and across a range of genres they are similar in presenting genre as situated within specific classrooms disciplines and institutions their assignments embody the pedagogy of a particular teacher and student responses here embody students prior experiences with writing in each chapter the authors define a

particular genre define the learning goals implicit in assigning that genre explain how they help their students work through the assignment and finally discuss how they evaluate the writing their students do in response to their teaching

working from the key principle that there is no curriculum development without teacher development cross curricular teaching and learning in the secondary school argues for a new skilful pedagogy which embeds an authentic cross curricular approach to teaching and learning in the work of the individual teacher

language across the curriculum lac is a method based on the assumption that learning is more successful if it is in a meaningful context it moves the focus away from the language to the subject to be studied so that the emphasis is on content and process and language is used in search of knowledge this publication contains the results of a network process to produce teaching materials based on the subjects of biology geography band history for 10 12 year olds

targeting across the curriculum book 3 upper primary
