main decisive front of the war in France in 1915 Russia having shouldered alone the whole burden of the struggle against Germany Austria and Turkey although forced to abandon Poland still gave the Allies the opportunity to prepare throughout a whole year for the coming German offensive at Verdun in 1916 Russia thanks to the Brusilov offensive saved Italy at that critical moment when the Austrians through their successful offensive from Tyrol in the rear of the Italians threatened to cut off a considerable portion of the Italian army at the same time menacing Venice together with this Russia by this offensive greatly facilitated the operations of the Allies on the Somme and was instrumental in the final clearing of the Verdun forts in the same year Russia took upon herself the blows of Mackensen's and Falkenhayn's armies which had invaded Roumania stopped the further advance of the Germans and undertook the defense of a considerable stretch of the Roumanian front

During his 800 days of war Nikolai Litvin fought at the front lines in the

ferocious tank battles at kursk was wounded three times and witnessed unspeakable brutalities against prisoners and civilians but he survived to pen this brief but powerful memoir of his wartime experiences barely out of his teens litvin served for three years in the red army on the killing fields of the eastern front his memoir presents an unadorned candid narrative of the common soldier s lot in stalin s army unlike the memoirs of russian officers usually preoccupied with large military operations and political concerns this narrative offers a true ground level view of world war ii s deadliest theater it puts a begrimed human face on the enormous toll of casualties and provides a rare perspective on battles that were instrumental in the defeat of the german army litvin s varied roles ranging from antitank gunner at kursk to heavy machine gunner in a penal battalion to staff driver for the 352nd rifle division offer unique perspectives on the red army in world war ii as it fought from the ukraine deep into the german heartland litvin documents such significant battles as operation kutuzov operation bagration and the german counterattack on the narev while also providing unique personal observations on fording the dnepr river under enemy fire the rape of german women by russian troops and literally seeing his life pass before his eyes as he watched a stuka s bomb fall directly on his position and because part of his duties involved chauffeuring red army generals he also presents revealing glimpses into their personalities and behaviors originally written in 1962 with events still fresh in his mind litvin s memoir lay unpublished and unseen until translator stuart britton and a russian colleague approached him about publishing it in english britton interviewed litvin to flesh out the details of his original recollection and annotated the resulting work to provide historical context for the campaigns and battles in which he participated remarkably free of soviet era propaganda this gem of a memoir provides a view of the war never seen by western readers including photographs from litvin s personal collection an invaluable historical document as well as a remarkable testament of survival litvin s memoir offers unique and penetrating insights into the soviet wartime experience unavailable in any other source

world war ii shows how deep seated local fears and hatreds escalated into one vast global struggle that was fought out to the bitter end it highlights the key battles the political and economic forces the individual leaders and the technological advances that influenced the course of the war illuminating compelling and visually stunning world war ii is the definitive guide to the most destructive and terrifying conflict of all time

a full century later our picture of world war i remains one of wholesale pointless slaughter in the trenches of the western front expanding our focus to the eastern front as david r stone does in this masterly work fundamentally alters and clarifies that picture a thorough and thoroughly readable history of the russian front during the first world war this book corrects widespread misperceptions of the russian army and the war in the east even as it deepens and extends our understanding of the broader conflict of the four empires at war by the end of 1914 the austro hungarian ottoman german and russian none survived but specific political social and economic weaknesses shaped the way russia collapsed and returned as a radically new soviet regime it is this context that stone s work provides that gives readers a more judicious view of russia s war on the home front as well as on the front lines one key and fateful difference in the russian experience emerges here its failure to systematically and comprehensively reorganize its society for war while the three westernmost powers embarked on programs of total mobilization context is also vital to understanding the particular rhythm of the war in the east drawing on recent and newly available scholarship in russian and in english stone offers a nuanced account of russia s military operations concentrating on the uninterrupted sequence of campaigns in the first 18 months of war the eastern empires race to collapse underlines the critical importance of contingency in the complete story of world war i precisely when and how russia lost the war was influenced by the structural strengths and weaknesses of its social and economic system but also by the outcome of events on the battlefield by bringing these events into focus and putting them into context this book corrects and enriches our picture of world war i and of

the true strengths and weaknesses triumphs and successes of the russian army in the great war

interestingly this title produced by the british war office in 1956 was written by general guillaume of the french army nevertheless it is a first class overview of the whole of operation barbarossa and is more than amply illustrated by a collection of 63 sketch maps detailing important battles and movements throughout the campaign planning is dealt with only briefly and the book really gets going with a description of the battle for moscow in the winter of 1941 42 it then looks at the defence of leningrad before racing forward to the battle of stalingrad details are then given of the fighting in the caucasus it is a treatment of the most important factors in the campaign from a military viewpoint and there is no padding in this book at all part two deals with the situation in the spring of 1943 and looks then in detail at the battle of kursk following the german failure there the russians advanced on orel and kharkov sealing the strategic fate of germany in the war 1944 and the german withdrawal is treated by means of descriptions of ten battles of destruction ending in late 1944 finally the author analyses the german collapse in 1945 throughout there are commentaries and analyses which help the reader to an understanding of not just what went on but why things went so wrong for the germans this is an important text for the student of this enormous campaign and cannot be ignored
