cataloging standards practiced within the traditional library archive and museum environments are not interoperable for the retrieval of objects within the shared online environment within today's information environments library archive and museum professionals are becoming aware that all information objects can be linked together in this way information professionals have the opportunity to collaborate and share data together with the shared online cataloging environment the end result being improved retrieval effectiveness but the adaptation has been slow libraries archives and museums are still operating within their own community specific cataloging practices this book provides a historical perspective of the evolution of linking devices within the library archive and museums environments and captures current cataloging practices in these fields it offers suggestions for moving beyond community specific cataloging principles and thus has the potential of becoming a springboard for further conversation and the sharing of ideas

originally published in 1974 this final volume in the trilogy is concerned primarily with comparing the academic progress made by pupils of near equal ability in the two types of school it considers attainment in different subjects but also attitudes to different subjects and then follows up with a study of university students from both types of school background

the experimental method is one commonly applied to issues of environmental economics this book brings together 63 leading researchers in the area and their latest work exploring the behavioural underpinnings of experimental environmental economics the essays in this volume will be illuminating for both researchers and practitioners specific

the conference on interdisciplinary research in technology and management was a bold experiment in deviating from the traditional approach of conferences which focus on a specific topic or theme by attempting to bring diverse inter related topics on a common platform the conference has sought to answer a long felt need and give a fillip to interdisciplinary research not only within the technology domain but across domains in the management field as well the spectrum of topics covered in the research papers is too wide to be singled out for specific mention but it is noteworthy that these papers addressed many

important and relevant concerns of the day

the sustainable company articulates how to create lasting value through social and environmental performance
