what is ear wax for do bacteria have sex how do they put stripes in toothpaste does your nose run in space what are stars made of this book answers those tantalising or perplexing questions for which you thought you d never find an answer a book for the naturally curious as well as those seekers after scientific truths it unravels both those things we take for granted such as when you boil an egg why does the yolk stay in the middle or why is the sky blue as well as questions which probe deeply such as what does an atom look like or what was there before the beginning of time if you were to write in the dust on the moon how big would the letters have to be so you could see them from earth without a telescope drawing on the expertise of a team of enthusiastic scientists around the world authoritative entertaining and often a touch humorous it will appeal to anyone who s ever been curious about life on earth

in the words came down english language learners read write and talk across the curriculum k 2oral language is emphasized in a continuum from teacher modeling and demonstration to situations in which student to student communication is essential

james henslin has always been able to share the excitement of sociology with his acclaimed down to earth approach and personal writing style that highlight the sociology of everyday life and its relevance to students lives adapted for students studying within australia this text now in a second edition has been made even more relevant and engaging to students with wit personal reflection and illuminating examples the local author team share their passion for sociology promote sociology to students and entice them to delve deeper into this exciting science six central themes run throughout this text down to earth sociology globalisation cultural diversity critical thinking the new technology and the growing influence of the mass media on our lives these themes are especially useful for introducing the controversial topics that make studying sociology such a lively exciting activity

in what we tell ourselves is an age of reason we are behaving increasingly irrationally an astonishing number of people subscribe to celebrity endorsed cults mayan armageddon prophecies scientism and other varieties of new age anti enlightenment philosophies millions more advance popular conspiracy theories aids was created in a cia laboratory princess diana was assassinated and the 9 11 attacks were an inside job in the world turned upside down melanie phillips explains that

the basic cause of this explosion of irrationality is the slow but steady marginalization of religion we tell ourselves that faith and reason are incompatible but the opposite is the case it was christianity and the hebrew bible phillips asserts that gave us our concepts of reason progress and an orderly world on which science and modernity are based without its religious traditions the west has drifted into mass derangement where truth and lies right and wrong victim and aggressor are all turned upside down scientists skeptical of global warming are hounded from their posts israel is demonized and the us is vilified over the war on terror all on the basis of blatant falsehoods and obscene propaganda worst of all asserts phillips this abandonment of rationality leaves the west vulnerable to its legitimate threats faced with the very real challenges of spiraling demographics and violent confrontational islamism the west is no longer willing or able to defend the modernity and rationalism that it once brought into being

battles over creation or evolution have been perpetuated for years by vocal christians and scientists alike but conflict has never been the only choice laying down arms to heal the creation evolution divide presents a comprehensive uplifting alternative that brings together an orthodox biblical view of a sovereign creator god and the meaningful discoveries of modern evolutionary biology gary fogle offers unique insights into this debate from his dual perspective as both an award winning biology professor and a committed leader in conservative evangelical churches in focusing on the stumbling blocks that surround creation and evolution debates fogle sensitively addresses the concerns of skeptical christians and demonstrates how believers may celebrate evolution as a remarkable aspect of god s glory he describes how the mainstream scientific community as well as numerous christians may alter current approaches to eliminate conflicts he explains conservative readings of early genesis that respect both the inerrant words of scripture and the evolutionary revelations in god s natural creation this book is for individuals who sense that biblical christian faith and evolution are compatible without compromising core convictions if given good reasons to do so are we willing to lay down our arms to affirm an encompassing vision for the future

a new edition of one of the bestselling cset products on the market reflects the latest changes in the california cset multiple subjects teacher certification test which is now computer based only the book includes diagnostic tests for every domain included in the test detailed subject review chapters and 2 full length practice tests with in depth answer explanations the cd
