finalist 2025 scholarly writing award saskatchewan book awards the french philosopher mystic activist simone weil 1909 1943 has drawn both passionate admiration and scornful dismissal since her early death and the posthumous publication of her writings she has also provoked an extraordinary range of literary writing focused on not only her ideas but also her person novels nonfiction and especially poetry given the challenges of weil s ethic of self emptying attention what accounts for her appeal especially among women writers this book tells the story of some of

weil's most dedicated and at points surprising literary conversation partners exploring why writers with varied political and religious commitments have found her thought and life so resonant. Cynthia R. Wallace considers authors who have devoted decades of attention to Weil, such as Adrienne Rich, Annie Dillard, and Mary Gordon, and who have written poetic sequences or book-length verse biographies of Weil, including Maggie Helwig, Stephanie Strickland, Kate Daniels, Sarah Klassen, Anne Carson, and Lorri Neilsen Glenn. She illuminates how writing to and in the tradition of Weil has helped these writers grapple with the linked harms and possibilities of religious belief, self-giving attention, and the kind of moral seriousness required by the ethical and political crises of late modernity. The first book to trace Weil's influence on Anglophone literature, the literary afterlives of Simone Weil provides new ways to understand Weil's legacy and why her provocative wisdom continues to challenge and inspire writers and readers.

The Norton Sampler is a collection of short essays for composition students like the cloth samplers that schoolchildren produced in colonial times to practice their stitches and at the same time their ABCs. The Norton Sampler is based on the assumption that writing is a practical art that can be learned by studying some basic rhetorical patterns: narration, description, comparison, and the like. Book jacket.

Winner of the Connecticut Book Award 2011, winner of the Connecticut League of History Organizations Award of Merit 2012, Connecticut women have long been noted for their creation of colorful and distinctive needlework, including samplers and family registers, bed rugs, and memorial pictures, crewel embroidered bed hangings and garments, silk embroidered pictures of classical or religious scenes, quilted petticoats and bedcovers, and whitework dresses and linens. This volume offers the first regional study encompassing the full range of needle arts produced prior to 1840. Seventy entries showcase more than one hundred fascinating examples, many never before published, from the Connecticut Historical Society's extensive collection of this early American art form produced almost exclusively by women and girls. The needle arts provide an illuminating vantage point for exploring early American women's history and education, including family-based traditions predating the establishment of formal academies. After the American Revolution, extensive genealogical research reveals unseen family connections linking various types of needlework similar to the multi-generational male workshops documented for other artisan trades, such as

woodworking or metalsmithing photographs of stitches reverse sides sketches design sources and related works enhance our understanding and appreciation of this fragile art form and the talented women who created it an exhibition of needlework in this book will be held at the connecticut historical society in late fall 2010 funding for this project has been provided by the coby foundation ltd and the national endowment for the arts
