in borrowed place mission stations and local adaption in early twentieth century hunan riika leena juntunen creates a microhistorical narrative around the establishment reception and development of lizhou protestant stations during the turbulent years of popular nationalism and early communist activity the book examines the changing place identity around the stations from political religious ritual cultural and gendered perspectives revealing a chinese semi religious community with varying motivations and in constant dialogue with its surroundings the group developed its own normative code and hierarchy and it offered both economic and religious benefits according to local models yet the developing political situation also meant it had to solve the question of anti foreignism to be able to continue its existence

in an engaging revisionist study john m carroll argues that in the century after the opium war hong kong s colonial nature helped create a local chinese business elite by the end of the nineteenth century the colonial government saw chinese businessmen as allies in establishing hong kong as a commercial center the idea of a commercially vibrant china united them chinese and british leaders cooperated on issues of mutual concern such as the expansion of capitalism and political and economic directions for an ailing china these chinese also found opportunities in the colonial system to develop business and commerce in doing so they used hong kong s strategic position to underscore their own identity as a distinctive group unlike their mainland counterparts nationalism took on a specifically hong kong character at the same time by contributing to imperial war funds organizing ceremonies for visiting british royalty and attending imperial trade exhibitions the chinese helped make hong kong an active member of the global british empire in edge of empires carroll situates hong kong squarely within the framework of both chinese and british colonial history while exploring larger questions about the meaning and implications of colonialism in modern history

he calls his process psychoconduction and likens it to the medical use of stem cells in psychoconduction simple cells are harnessed to process information normally handled by complex cells the us review of books this book is about a series of exercises to reeducate the brain cells this explains the method and system for the psychological treatment by brain stimulation of the psychologically disordered object this provides a possibility to stimulate the simple cells to assist the complex cells in order to correctly perform the assigned command the system reeducates the brain cells by transferring the same information to various parts of the brain psychoconduction is the process of translating the simplified symbol to various parts of the brain the goal is to correct or replace the complex cells which can be audio

video kinesthetic and or olfactory those cells have difficulty in processing information correctly and need to be tuned up and balanced the tune up of the different parts of the brain on the same information is providing correction to the complex brain cell this method provides many patterns of video audio kinesthetic symbols the patterns of visual audio kinesthetic olfactory tactile and musical information can be based on the binary arithmetic and can be different from binary base those various patterns are called litvin s code in this book the patterns are based on binary code previously written books the life of the sailor psychology of who we are introduction to brain stimulation by psychoconduction litvin s code intermediate brain stimulation by psychoconduction advance brain stimulation by psychoconduction sailor s psycahology
