Frequently Asked Questions (FAQs)

- 1 What is the best investment strategy for beginners?** For beginners, a low-cost, diversified index fund or ETF that tracks a broad market index like the S&P 500 is a great starting point. This offers diversification and low expense ratios.
- 2 How much should I save for retirement?** A general rule of thumb is to aim to save at least 15% of your pretax income for retirement. However, the optimal amount depends on your individual circumstances, including your desired retirement lifestyle and anticipated expenses.

- 4 How do I choose the right financial advisor?** Look for a fiduciary advisor with relevant certifications (CFP, CFA), a strong track record, and a good reputation. Schedule consultations with several advisors to find one whose approach and philosophy aligns with yours.
