in masculinity and queer desire in spanish enlightenment literature mehl allan penrose examines three distinct male figures each of which was represented as the other in eighteenth and early nineteenth century spanish literature the most common configuration of non normative men was the petimetre an effeminate francophile male who figured a failed masculinity a dubious sexuality and an invasive french cultural presence also inscribed within cultural discourse were the bujarrón or sodomite who participates in sexual relations with men and the arcadian shepherd who expresses his desire for other males and who takes on agency as the voice of homoerotica analyzing journalistic essays poetry and drama penrose shows that spanish authors employed queer images of men to engage debates about how males should appear speak and behave and whom they should love in order to be considered real spaniards penrose interrogates works by a wide range of writers including luis cañuelo ramón de la cruz and félix maría de samaniego arguing that the tropes created by these authors solidified the gender and sexual binary and defined and described what a queer man was in the spanish collective imaginary masculinity and queer desire engages with current cultural historical and theoretical scholarship to propose the notion that the idea of queerness in gender and sexuality based on identifiable criteria started in spain long before the medical concept of the homosexual was created around 1870

this book provides a significant contribution to our understanding of the ottoman empire s economic history particularly through its exploration of local entrepreneurship which brings new perspectives to the economic dynamics of the region this focus adds a valuable dimension to the broader narrative of mediterranean social and economic developments from the 18th to the 20th century by emphasizing the role of both muslim and non muslim agents the work challenges more eurocentric narratives that

have often influenced the historiography of economic activities in this region the inclusion of ottoman turkish and greek sources underlines the importance of accessing voices and records that have been underutilized in previous studies the fact that this project is a result of greek turkish academic cooperation is particularly noteworthy as it promotes a more nuanced and comprehensive view toward shared histories in order to shed light on complex historical phenomena this work will be of interest to scholars of ottoman and mediterranean history seeking to explore the nuances of economic and social change from within the ottoman empire it will also appeal to a wider audience interested in the history of early entrepreneurial activities and the complex interplay between cultural and economic dynamics in historical contexts
