it s the first day of school and camilla discovers that she is covered from head to toe in stripes then polka dots and any other pattern spoken aloud with a little help she

learns the secret of accepting her true self in spite of her peculiar ailment

this is the first volume dedicated solely to the topic of epistemological disjunctivism the original essays in this volume written by leading and up and coming scholars on the topic are divided into three thematic sections the first set of chapters addresses the historical background of epistemological disjunctivism it features essays on ancient epistemology immanuel kant j l austin edmund husserl and ludwig wittgenstein the second section tackles a number contemporary issues related to epistemological disjunctivism including its relationship with perceptual disjunctivism radical skepticism and reasons for belief finally the third group of essays extends the framework of epistemological disjunctivism to other forms of knowledge such as testimonial knowledge knowledge of other minds and self knowledge epistemological disjunctivism is a timely collection that engages with an increasingly important topic in philosophy it will appeal to researches and graduate students working in epistemology philosophy of mind and philosophy of perception

in this volume declan smithies argues that consciousness has unique epistemic significance in the sense that only conscious creatures have epistemic justification to know anything about the world in other words all epistemic justification depends ultimately on consciousness

anthony brueckner is recognized as one of the leading contemporary investigators of the problem of skepticism this collection brings together brueckner s most important work in this area providing a connected and comprehensive guide to the complex state of play on this intensively studied area of philosophy

the gettier problem has shaped most of the fundamental debates in epistemology for more than fifty years before edmund gettier published his famous 1963 paper it was generally presumed that knowledge was equivalent to true belief supported by adequate evidence gettier presented a powerful challenge to that presumption this led to the development and refinement of many prominent epistemological theories for example defeasibility theories causal theories conclusive reasons theories tracking theories epistemic virtue theories and knowledge first theories the debate about the appropriate use of intuition to provide evidence in all areas of philosophy began as a debate about the epistemic status of the gettier intuition the differing accounts of epistemic luck are all rooted in responses to the gettier problem the discussions about the role of false beliefs in the production of knowledge are directly traceable to gettier s paper as are the debates between fallibilists and infallibilists indeed it is fair to say that providing a satisfactory response to the gettier problem has become a litmus test of any adequate account of knowledge even those accounts that hold that the gettier problem rests on mistakes of various sorts this volume presents a collection of essays by twenty six experts including some of the most influential philosophers of our time

on the various issues that arise from gettier s challenge to the analysis of knowledge explaining knowledge sets the agenda for future work on the central problem of epistemology
