New York Times bestselling author Jennifer Estep blasts off with an exciting new science fiction fantasy adventure with a dash of historical romance. This action-packed space opera features a mix of magic and technology along with a soul mates and enemies to lovers story perfect for fans of Star Wars, Bridgerton, and Pride and Prejudice. A woman who sees everything few people know, the name Vesper Quill to most folks, I'm just a lowly lab rat who designs brewmakers and other household appliances in the research and development lab at the powerful Kent Corp. But when I point out a design flaw and a safety hazard in the new line of Kent Corp spaceships, everyone knows who I am and wants to eliminate me. I might be a seer with a photographic memory, but I don't see the trouble headed my way until it's too late. Suddenly, I'm surrounded by enemies and fighting for my life. I don't think things can get any worse until I meet Kyrion Caldaren, an arrogant regal lord who insists that we have a connection, one that could be the death of us both. A man who can't forget his past, the name Kyrion Caldaren strikes fear in the hearts of people across the Archipelago Galaxy as the leader of the Arrows, the Imperium's elite fighting force. I'm used to being a villain as well as the personal assassin of Lord Callus Holloway, even the wealthy regals who live on the planet of Corios are afraid of me. But everything changes when I meet Vesper Quill. I might be a powerful psion with telepathic, telekinetic, and other abilities, but Vesper sees far too many of my secrets. Thanks to an arcane, unwanted quirk of psionic magic, the two of us are forced to work together to unravel a dangerous conspiracy and outwit the deadly enemies who want to bend us to their will.

With her grandmother's recent marriage, Lorelei has had far more good times than bad lately. That all changes when a ruthless Ashland underworld boss starts threatening her, but Lorelei is determined to figure out why the other crime boss is so interested in her thriving business. She vows to use her elemental ice and metal magic to do whatever it takes to defend herself and her family. Also in the mix is the mercurial Hugh Tucker. Tucker might even be something else, something more, if Lorelei can stay alive long enough to figure out whose side he's really on. Note: Heart Stings is a 38,000 word novella from the point of view of Lorelei Parker. It takes place after the events of Last Strand, book 19 in the Elemental Assassin urban fantasy series. Many, if not most, urban forestry successes and failures begin at the planning stage. The intent of this design manual is to replace as many of the subjective decisions made during street tree design and plant selection with objective criteria. The manual will assist communities and planners to not only select the best trees for their available planting sites but to use specific principles of street tree design to most effectively create public green spaces, positively affect traffic patterns, and create healthy living spaces. The format of the design manual is one of prompting questions. This will not only help the user select the best plants for the area but will pose sufficient questions to better ensure that issues of spacing, relative placement to travel corridors, and a wide variety of design elements will be satisfied. The tree species selection philosophy includes not only whether the tree is hardy enough but whether it can achieve the design function for the area. In theory, a well-placed tree in a well-designed landscape will require less maintenance and yield more rewards for the community.
