this new edition of hugh thirlway s authoritative text provides an introduction to one of the fundamental questions of the discipline what is and what is not a source of international law traditionally treaties between states and state practice were seen as the primary means with which to create international law however more recent developments have recognized

customary international law alongside international treaties and instruments as a key foundation upon which international law is built this book provides an insightful inquiry into all the recognized or asserted sources of international law it investigates the impact of ethical principles on the creation of international law whether soft law norms come into being through the same sources as binding international law and whether jus cogens norms and those involving rights and obligations erga omnes have a unique place in the creation of international legal norms it studies the notion of general principles of international law within international law's sub disciplines and the evolving relationship between treaty based law and customary international law re examining the traditional model it investigates the increasing role of international jurisprudence and looks at the nature of international organisations and non state actors as potential new sources of international law this revised and updated book provides a perfect introduction to the law of sources as well as innovative perspectives on new developments making it essential reading for anyone studying or working in international law

includes titles on all subjects some in foreign languages later incorporated into memorial library
