this special report provides the compassionate guidance and pragmatic support that librarians will need to survive possible career crises and reenter the job market with renewed confidence

turn volatility into your competitive edge with research backed strategies to thrive in ai driven fast changing careers you were told to follow a plan pick the right major land the right job and climb the ladder but the world doesn t work that way anymore if it ever did ai is upending industries career paths are unpredictable and instability is the only certainty the old playbook is obsolete the good news uncertainty isn t a problem it s your greatest advantage in the uncertainty advantage you ll learn how to stop overthinking and make smarter career decisions faster using research backed tools land better jobs with unconventional strategies that help you stand out from the crowd bounce back from setbacks using science backed techniques for resilience and antifragility future proof your career by mastering human skills ai can t replace like storytelling judgment and influence scott stirrett challenges the myths that hold young professionals back drawing from research real world examples and lessons from helping over ten thousand emerging leaders stirrett

reveals why instability isn't something to fear it's an opportunity to grow adapt and get ahead

the safety of the workplace is now a highly visible public issue many want tighter regulation to reduce worker risk others find government intervention ineffective and costly viscusi develops a theory of individual responses to job hazards under conditions of uncertainty in this exploration of how well markets for hazardous jobs actually work

this edited book presents new results in the area of the development of exact and heuristic scheduling algorithms it contains eight articles accepted for publication for a special issue in the journal algorithms the book presents new algorithms e.g. for flow shop job shop and parallel machine scheduling problems the particular articles address subjects such as a heuristic for the routing and scheduling problem with time windows applied to the automotive industry in mexico a heuristic for the blocking job shop problem with tardiness minimization based on new neighborhood structures fast heuristics for the euclidean traveling salesman problem or a new mathematical model for the period aggregated resource leveling problem with variable job duration and several others

this book constitutes the proceedings of the 25th international conference on principles and practice of constraint programming cp 2019 held in stamford ct usa france in september october 2019 the 44 full papers presented in this volume were carefully reviewed and selected from 118 submissions they deal with all aspects of computing with constraints including theory algorithms environments languages models systems and applications such as decision making resource allocation scheduling configuration and planning the papers were organized according to the following topics tracks technical track application track multi agent and parallel cp track testing and verification track cp and data

science track computational sustainability and cp and life sciences track

as i write the financial systems of the world are collapsing with still no clear indication of what the consequences will be and which measures should be taken to avoid such a crisis in the future there seems to be agreement though that the financial instruments introduced in the past few decades entailed far too much complexity and uncertainty and that there was too little regulatory control over the use of these instruments management of uncertainty with the aim of achieving self control is the core concern of this book it was not written with a focus on financial systems but many concepts developed in this book are applicable to this field as well the neric principles of reducing maintaining or increasing uncertainties in view of the different contingencies an organization is faced with the fundamental issue of how much control is possible and who should be in control and the question of how much and what kind of regulation is necessary with the overall aim of finding an appropriate balance between system stability and flexibility are at the centre of heated debates on the future of finance

science empirical knowledge and technology applied science have long played a key role in social development in modern times they have come to be seen as absolutely essential factors in the achievement of economic growth and development and though many dispute their ascendancy and legitimately point to their abuses there is no escaping their presence and impact taking as a main theme the central role of science and technology in economic progress this first of a kind sourcebook gathers together the perspectives and expertise of an international body of specialists in science and technology policy to examine the role of science and technology in development and assess their social economic

and political dimensions the authors look at the key issues in relation to the exigencies of developing countries in the new international context they emphasize the complexity of the links between science technology and development and the important insights to be gained from the study of these links the authors also point out that despite science and technology s promise of social and economic progress such progress is less than ever an inevitable result of their application though there is no doubt about what can be achieved through science and technology the quest is an uncertain one book jacket title summary field provided by blackwell north america inc all rights reserved

this is a single source guide to articles appearing each year in all major black american journals providing coverage of important literature in the field of black studies among the areas covered in each annual edition are women related issues literature education economics discrimination health care music dance theatre and film interviews obituaries and book and drama reviews are also included entries are arranged by subject and author in convenient dictionary format with extensive cross referencing
