first published in 1961 the psychology of jung presents a critical and historical interpretation of carl jung s psychology in this book the author describes himself as an independent student and as an interested though uncommitted observer and attempts to explain and reconcile drawbacks contradictions discrepancies and incongruities of jungian theory in particular its indefiniteness its mystical semireligious characteristics its emphasis on visual imagery and mythological symbolisms it brings themes like historical background early and intermediate period the jungian therapy and related insights jung s critique of freud and psychotherapy changes in jung s work and its appeal and jungian psychology and its appeal this is a must read for students of psychoanalysis and psychology

a condensation and summary of carl jung s life and work including his concepts of the collective unconscious and his masterful investigations into the roots and meanings of dreams

because of the size and depth of jung s collected writings many readers though interested in his ideas find themselves intimidated by them and read only overviews of jungian psychology rather than jung s own work this book is organized therefore as a guide to jung s 19 volume collected works it provides an entree into each important concept in jung s work through a brief explanation followed by a list of graded readings related writings by

other authors are also recommended so that readers can obtain a fuller and deeper understanding of the contribution of jungian psychology

this volume brings together selected papers from the 2021 iajs conference focusing on jungian psychology s place within the broader human science field with contributions providing an interdisciplinary examination of fields such as psychoanalysis feminism critical thought and eco psychology the historical foundations of jungian thought in phenomenology hermeneutics the significance of imagination and the body s genetics open the book with outstanding essays from both renowned and aspiring new scholars chapters highlighting matters of current social political and ecological considerations shed light on the intersections between jungian psychology and much contemporary thought in these fields the healing process takes center stage in the last part of the book which will interest readers involved with the broader psychotherapy field with rigorous and scholarly contributions from a variety of international figures in analytical psychology this book will be of great interest to all jungian and depth psychology scholars students and analysts in training as well as readers in the broader human science psychology field interested in current jungian psychology and phenomenology

you won t find anything better not only for someone who is just beginning to take their dreams seriously but also for those who find working with dreams a frustrating baffling affair round table review

though he was a prolific writer and an original thinker of vast erudition jung lacked a gift for clear exposition and his ideas are less widely appreciated than they deserve in this concise introduction anthony stevens explains clearly the basic concepts of jungian psychology the collective unconscious complex archetype shadow persona anima animus and the individuation of the self he examines jung s views on such disparate subjects as myth religion alchemy synchronicity and the psychology of gender differences and he devotes separate chapters to the stages of life jung s theory of psychological types the interpretation of dreams the practice of jungian analysis and to the unjust allegation that jung was a nazi sympathizer finally he argues that jung s visionary powers and profound spirituality have helped many to find an alternative set of values to the arid materialism prevailing in western society about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

according to carl jung the goal of human life is self realization we have to strive to become whole deep down we are all creative beings and we have to make use of our creativity to become what we really are kast explores jung s concept of the human being and describes the path to wholeness which since jung is known as the individuation process it becomes clear that wholeness is only possible through the interplay between conscious and unconscious however the two have different languages consciousness uses word logic whereas the unconscious uses dream logic both languages would be forever foreign to each other were it not for symbols which mediate between the two our unconscious encodes its knowledge in symbols which we then have to translate into the language of our consciousness thus symbols are focal points of psychic development and it is through them that we can become whole human beings jung taught us the techniques with which we can make the creative core of the

unconscious available to consciousness kast explains them by using numerous examples from her daily work as a therapist she shows us how psychological problems can be overcome by working on the symbols in which they express themselves in a language that can be readily grasped by the general reader kast goes on to explain the basic thought of jungian psychotherapy covering the correlation between symbols and complexes with a special emphasis on the ego complex the healing function of the archetypes and how they appear in and interact with symbols and symbols in transference and countertransference powerful tools in psychotherapy kast also discusses the interplay of psychosomatic diseasesand symbols the dynamics of symbols is not only of immediate interest to all psychologists and their patients it is of direct concern to everyone who has the desire to become a whole human being

historically there were more male therapists and more female patients just as society has changed so has therapy jung s psychology includes the feminine aspects of a man and the masculine parts of a woman of course today it is a complete psyche or an inner marriage in the background would be a mandala which also represents wholeness and individuation synchronicity is an acausal but meaningful relationship which therapy honors jung s psychology also includes the shadow which represents what has been left out the ego in analytical psychology stands for the center of consciousness in the personal self whereas the self is the center of the psyche and totality and links one to spiritual wholeness hence the individuated person has confession conscious and unconscious archetypes complexes anima and animus or syzygy numinous gnosis typology symbols dreams the shadow and active imagination these aspects of analytical psychology are then discussed and illustrated with a case history in sum the ego is secondary to the self in an individuated person both a mandala and jungian therapy and analysis are associated with wholeness

o brien and o brien and their collection of international contributors introduce the historical and current theory and practice of corporate analytical psychology uniquely and practically bringing jungian ideas to the corporate world the chapters discuss the increasing need for ethical corporations in the context of individuation and moral hazard demonstrate how to manage and define complexes that inhibit creativity and productivity and shows practitioners how to recognise and connect with symbols as an active and living manifestation of the personal and collective psyche the book is illustrated with practical examples and case studies encountered by the authors during their 30 years of experience consulting the world s leading companies and institutions

the language of jung s writings and of analytical psychology generally is sometimes difficult to understand this guide in dictionary format combines scholarship and historical accuracy with a stimulating critical attitude

this is volume iii of twelve in the analytical psychology series originally published in 1942 the present work has grown out of a lecture given before a group of psychologists physicians and educators and this is the fifth edition giving a presentation of the elements of jung s psychology that is intended to give a concise picture complete in itself of the central content of the whole system and above all to facilitate access to jung s own extraordinarily voluminous works

the role of supervision in the training of clinical psychologists social workers psychiatrists and psychoanalysts has in recent years taken on increasing importance even though supervision has long been an essential part of the training of psychotherapists remarkably little was written on the subject until ten years ago this volume addresses the need for more open discussion of the various facets of supervision and the training of analytic candidates with chapters by leaders in the field on elaborating technique elucidating transference and countertransference issues proposing direction and focus to clinical inquiry suggesting dynamic and archetypal formulations of the analytic process and exploring repetitive patterns of behavior thought and fantasy this collection embodies an essential reference source for supervising psychoanalysts and therapists as well as training candidates graduate students in social work and clinical psychology and psychiatry residents contents contributors 7 acknowledgments 13 notes on conventions 15 part i background 16 1 introduction 17 2 historical notes 29 mary ann mattoon part ii individual supervision 39 3 suggestions towards a theory of supervision 40 michael fordham 4 michael fordham s theory and practice of supervision 52 norah moore 5 supervision and the mentor archetype 62 lionel corbett 6 supervision and the interactive field 85 mario jacob 7 transference projections in supervision 93 joseph wakefield 8 styles of supervision 106 judith hubback 9 sustaining the potential analyst s morale 110 john beebe part iii the case colloquium 118 10 ecstasies and agonies of case seminar supervision 119 donald kalsched 11 on supervision in jungian continuous case seminars 135 crittenden e brookes 12 some thoughts on the clinical process 146 joan reggiori part iv assessing progress in supervision 164 13 a symposium how do i assess progress in supervision 165 part v phases in a supervisor s life 208 14 the transition from training candidate to supervising analyst 209 paul kugler 15 the education of the supervisor 218 marga speicher 16 the aging supervisor 233 h j wilke part vi supervision and institutions 242 17 supervision training and the institution as an internal pressure 243 james astor 18 a model of clinical supervision 265 jean carr 19 supervision the impossible profession 273 louis zinkin selected bibliography 282

becoming an introduction to jung s concept of individuation explores the ideas of carl gustav jung his idea of a process called individuation has sustained deldon anne mcneely s dedication to a lifelong work of psychoanalysis which unfortunately has been dismissed by the current trends in psychology and psychiatry psychotherapists know the value of jung s approach through clinical results that is watching people enlarge

their consciousness and change their attitudes and behavior transforming their suffering into psychological well being however psychology's fascination with behavioral techniques made necessary by financial concerns and promoted by insurance companies and pharmaceutical companies has changed the nature of psychotherapy and has attempted to dismiss the wisdom of jung and other pioneers of the territory of the unconscious mind for a combination of unfortunate circumstances many of the younger generation including college and medical students are deprived of fully understanding their own minds those with a scientific bent are sometimes turned away from self reflection by the suggestion that unconscious processes are metaphysical mumbo jumbo superficial assessments of jung have led to the incorrect conclusion that one must be a spiritual seeker or religious in order to follow jung's ideas about personality becoming is an offering to correct these misperceptions many university professors are not allowed to teach jungian psychology secular humanism and positivism have shaped the academic worldview therefore investigation into the unknown or unfamiliar dimensions of human experience is not valued but this attitude contrasts with the positive reputation jung enjoys among therapists artists of all types and philosophers those without resistance to the unconscious because of their creativity open mindedness or personal disposition are more likely to receive jung's explorations without prejudice or ideological resistance there is a lively conversation going on about jung's ideas in journals and conferences among diverse groups of thinkers which does not reach mainstream psychology becoming is for those whose minds are receptive to the unknown and to help some of us to think more with respect than dread of the possibility that we act unconsciously

jungian psychology has taken a noticeable political turn in the recent years and analysts and academics whose work draws on jung's ideas have made internationally recognised contributions in many humanitarian communal and political contexts this book brings together a multidisciplinary and international selection of contributors all of whom have track records as activists to discuss some of the most compelling issues in contemporary politics analysis and activism is presented in six parts section one interventions includes discussion of what working outside the consulting room means and descriptions of work with displaced children in colombia projects for migrants in italy and of an analyst's engagement in the struggles of indigenous australians section two equalities and inequalities tackles topics ranging from the collapse of care systems in the uk to working with victims of torture section three politics and modernity looks at the struggles of native people in guatemala and canada and oral history interviews with members of the chinese vietnamese diaspora section four culture and identity studies issues of race and class in brazil feminism and the gendered imagination and the introduction of obamacare in the usa section five cultural phantoms examines the continuing trauma of the cultural revolution in china jung's relationship with jews and judaism and german jewish dynamics finally section six nature truth and reconciliation looks at our broken connection to nature town and country planning and relief work after the 2011 earthquake in japan there remains throughout the book an acknowledgement that the project of thinking forward the political in jungian psychology can be problematic given jung's own questionable political history what emerges is a radical and progressive jungian approach to politics informed by the spirit of the times as well as by the spirit of the depths this cutting edge collection will be essential reading for jungian and post jungian academics and analysts psychotherapists counsellors and psychologists and academics and students of politics
