conhecido por sua ampla experiência como tradutor do inglês para o português paulo henriques britto reflete acerca dessa complexa tarefa nesta obra sem temer assumir atitudes polêmicas em relação a alguns dos teóricos em voga na atualidade o poeta e tradutor desenvolve suas próprias ideias com objetividade e argúcia um livro precioso tanto para iniciantes no assunto quanto para especialistas em teoria e prática da tradução os quais frequentemente se deparam com dificuldades comuns a quem quer que lide com o assunto

o tradutor literário pode estimular o diálogo entre a tradição literária da obra original e a da língua alvo para essa finalidade proponho a tradução de autores por intermédio de outros autores tal abordagem revela se satisfatória por três razões a a literariedade de uma obra não se perderia invariavelmente num texto denotativo escrito em linguagem padronizada para consumo popular a menos que fosse essa a intenção do tradutor b por outro lado levar se ia igualmente em conta o contexto literário da língua alvo sem prejuízo das opções estéticas do tradutor e não obstante limitações que lhe fossem impostas pelo mercado c essa atitude em relação aos paideumas envolvidos permitiria um sem número de possibilidades tradutórias esta visão não reducionista e não prescritiva do processo de tradução literária tenta assim explicitar e desenvolver um aspecto inerente ao ofício do tradutor pois só se pode efetivamente traduzir literatura a partir dela própria

this volume painstakingly formulates a composite model of translation procedures that covers both linguistic and cultural aspects inherent in translation the model is based on an integration of three classic taxonomies of translation procedures proposed by influential translation scholars namely vinay and darbelnet 1995 newmark 1988 and dickins hervey and higgins

2002 2016 the book combines these three taxonomies into an integrated model and extends it effectively to identify patterns of translation procedures and overall strategies in english kurdish translation of journalistic texts the book is a breakthrough in the field of journalistic translation between the two languages with a clear definition and exemplification of each translation procedure the importance of the model is that it is replicable for future descriptive translation studies and can be carried out in other language pairs and on other genres moreover the model is comprehensive in nature and covers almost all translational changes and shifts that may occur in the translation process thus this model of translation procedures transcends previous frameworks in such a way that prospective translation researchers will not need to go back to these older models of translation procedures

drawing on the expertise of over 90 contributors from more than 30 countries this work offers a detailed overview of translation studies
