some companies discover the value of cross border collaborations only after fighting long head to head battles that leave them financially exhausted intellectually depleted and vulnerable to the next wave of competition and innovation grudgingly they come to recognize the benefits of sharing and trading control costs skills capital information technology and access to markets but only after a heavy price now companies can begin to learn the value of collaboration and how to capitalize on strong flexible alliances by reading collaborating to compete written by mckinsey company s leading international management consultants this strategic and operational guide provides practical information on how to design effective cross border alliances based on hundreds of case studies worldwide that illustrate the common factors that go into winning alliances the authors argue that successful companies are transferring competence across borders by retaining key managers from acquired companies and by employing other strategies designed to reap the best from both companies in the consolidation the authors also argue that effective collaboration is based on a long term sequence of actions and that alliances fail when they re driven by hasty shortsighted goals the authors highlight key steps in putting together a powerful alliance including overcoming the resistance to alliances from executives and managers finding the best structure and partner to meet a given set of goals building flexibility into your collaboration to permit changes in legal and financial structures ensuring good frequent communication between you and your partners setting up internal mechanisms to resolve conflicts quickly and rescuing poorly conceived alliances in reading about the activity of leading companies in the u s japan and europe readers will discover that even acquisitions once a strictly predatory enterprise are now taking on a more collaborative color drawing on mckinsey s strategies from the triad collaborating to compete goes on to show why cross border strategy approaches need to account for the unique regulatory structural and cultural barriers presented by individual countries and regions the book shows that by following through on the basic prescription u s companies can ally for advantage to open up the once impenetrable japanese market japanese mncs can successfully move into those complex u s markets u s japan and other countries can crack the european economic community and european companies can transcend obstacles and make successful u s acquisitions collaborating to compete also looks hard at the dramatic restructuring of europe and asia and points out how european companies will have to use cross border acquisitions and alliances to respond to new threats from global and pan european competitors

with the increasing interest of foreign investors particularly institutional investors in european companies there is a growing need for information on the different regimes affecting the legal status of shareholders investors need to be aware of the rights and

privileges of shareholders in various jurisdictions in order to participate effectively in companies voting and decision making processes this book provides detailed analysis of the rules and practices in sixteen european jurisdictions and the united states covering issues such as convening the general meeting depositing and blocking of shares participation rights setting of the agenda voting rights and proxy rules the authors also aim to make companies aware of practices which may hamper effective shareholder participation and in comparing the different rules and practices to identify areas where further harmonisation might be undertaken within the european community framework the papers collected here are the result of a conference organised by professor theodor baums of the university of osnabrück and professor eddy wymeersch of the university of ghent

when vladimir putin came to power in 2000 george bush said he was a man he could trust since then relations between russia and the west have gone from bad to worse the eu and russia have been unable to agree on the terms of their partnership nato expansion continues apace threatening to include countries like ukraine and georgia the united kingdom harbours as political refugees men who call for the violent overthrow of the russian government and the united states is determined to build an anti missile shield which moscow fears would render feasible a first strike against russia how do russians see these developments and the other developments inside their fascinating country this book contains articles by some fifty commentators and decision makers the overwhelming majority russians on issues as diverse as immigration demography the economy gas and oil pipelines foreign policy public opinion and international relations the book provides a survey of all the major political and social issues facing russia today there is no comparable collection of essays by insiders in print this is an invaluable tool for anyone interested in the largest country on earth
