this extraordinary little book has the power to heal and foster relationships console and empower individuals create community and help save the world by providing a spiritual ecology for our daily lives think that s a bold claim it is but it s also true we can all be generous with our money when an occasion like christmas rolls around or when disaster strikes as it did with the boxing day tsunami of 2004 but lucinda vardey and john dalla costa say that this kind of giving segregates generosity and makes it a special activity only for special times if we re truly going to help this troubled world as individuals we must investigate other possibilities for being generous as well by helping those we interact with every day our children colleagues parents friends and the homeless men and women we encounter when out and about in our cities we learn that the four most generous words in the english language are i m sorry and thank you we learn that if we ask what do you need we may be surprised how readily we can provide assistance and how a single generous act may turn into something that circulates to include many lucinda and john are a married couple who have committed they say humbly and imperfectly to making generosity a central practice in their daily lives what they refer to as their art of right living within family work and community is both a mode of being and a value that infiltrates all others generosity inspires and guides them and continually tests and teaches them this book is filled with true stories they ve collected about generosity in action being generous is their gift to readers written to enable and encourage us to follow the generous way she was famous for her work with the poor in the streets of calcutta one day a beggar by the road ran up to her with a small coin financially worthless to anyone but him it was his day s take on a long hot and humid day and he wanted to give it to her she pondered what to do if she took the money then he would have nothing at all but if she rejected him it would not only hurt him but insult his generosity she stretched out her hand he who never had the chance to give could give to mother teresa the joy on his face said everything to her the lesson saying no to another s offer denies them the joy of giving accepting what they wish to give even if you don t need it is what practising true generosity is about from being generous

in reviewing the contents of this handbook edited by freeman simon beutler and arkowitz i am both impressed and gratified with the enormous strides made by cognitive behavior therapy since the late 1960s a perusal of the contents reveals that it is used with adults children couples and families it is clinically appropriate for such problems as anxiety depression sexual dysfunctions and addictions and it is employed in conjunction with psy chopharmacological and other psychotherapeutic interventions it was in the mid 1960s when breger and mcgaugh published an article in the psychological bulletin taking behavior therapists to task for using only classical and operant principles in devising their therapeutic interventions breger and mcgaugh argued that the field of learning was undergoing a major revolution paying considerably more attention to cognitive processes than had previously been the case in short they criticized the growing behavioral orientation for being limited in its exclusively peripheralistic orientation at the time behavior therapists were initially somewhat resistant to any allusion to cognitive metaphors indeed my own initial reactions to the breger and mcgaugh article was quite negative yet in rereading their critique many of their suggestions now seem most appealing no doubt i and my behavior colleagues lacked the appropriate cognitive set for incorporating such contradictory information nonetheless the clinical evidence for the relevance of cognitive factors in the behavior change process was simply too compelling to ignore
