the guyanese poet martin carter was without question one of the major poets of the english language of our time in the caribbean carter has long been regarded as one of the great poets who chronicled the journey from colonialism to independence alongside such figures as aime cesaire derek walcott nicholas guillen and kamau brathwaite while his earlier poems have become classics of socialist literature translated into many languages and are among the foundation stones of caribbean poetry they have hardly been acknowledged in more general accounts of poetry in english it was too easy for lazy critics and anthologists to dismiss him as merely a political poet one who swore as he put it in one poem to use his shirt as a banner for the revolution in fact looking at carter's work overall it is hard to think of a contemporary poet writing in english who showed more concern for craft who

measured his utterance with greater care his later work while it never lost its political edge was more oblique and cerebral than the overtly political poems of his youth it sits comfortably alongside that of fellow south american poets valejo neruda and paz they are his contemporaries in every sense his work is of that originality stature and elemental force this book sets out to celebrate martin carter s life and work and to establish a context for reading his poetry it locates the several facets of carter s work in the historical and cultural circumstances of his time in guyana in the caribbean it includes essays by many leading academics and scholars of caribbean literature and history it is distinguished particularly by a collection of responses to carter s work by other creative writers both his contemporaries and a younger generation for whom carter s work and commitment has been a powerful influence on their own thinking and practice as well as demonstrating the profound respect in which he is held as a writer what emerges most strongly from this group of essays and poems from his fellow writers is the extent to which he was loved and admired as a man who despite the turmoil guyana has experienced over the last fifty years remained true to his fundamental belief in the dignity of humankind contributors include john agard edward baugh kamau brathwaite stewart brown jan carew david dabydeen fred d aguiar kwame dawes michael gilkes stanley greaves wilson harris roy heath kendel hippolyte louis james linton kwesi johnson eusi kwayana george lamming ian mcdonald mark mcwatt mervyn morris grace nichols ken ramchand gordon rohlehr rupert roopnaraine andrew salkey and many others all are involved is a difficult book to review its contents are so packed so vital the statements so well made that paraphrasing them becomes an act of egregious violence here is martin carter that gifted paradoxical man p 45 that friendly dreamful dangerous man p 370 analysed extolled lavished with the recognition which eluded him in life because of the politics of his poetry and the poignant truth and moral force of that politics this book demonstrates how wrong we were to have neglected carter s voice how

diminished all are involved is a treasure so empowering a tribute we pay through martin carter to all that is human in us it is a most enduring legacy

as academics in postcolonial caribbean countries we have been trained to believe that research should be objective a measurable benefit to the public  
good and quantifiable in nature so as to generalize findings to develop knowledge societies for economic growth what happens however when the very  
word research connotes a derogatory term or semblance of distrust smith 1999 speaks towards the distrustful nature of the term as a legacy of european  
imperialism and colonialism against this backdrop how do caribbean researchers leverage recognized and valued indigenous methods of knowing and  
understanding for and by the caribbean populace how do we learn from indigenous research methods such as kaupapa maori smith 1999 and develop  
an understanding of research that is emancipatory in nature decolonizing qualitative methods are rooted in critical theory and grounded in social justice  
resistance change and emancipatory research for and by the other said 1978 rodney s 1969 legacy of groundings provides a caribbean oriented  
ethnographic approach to collecting data about people and culture it is an anti imperialist method of data collection focused on the socioeconomic and  
political environment within the post colonial context similar to rodney other critical caribbean scholars have moved the research discourse to center on  
the notions of resistance struggle chevannes 1995 feraria 2009 and decolonizing methodologies this proposed edited volume will provide a collective  
body of scholarship for innovative uses of decolonizing qualitative research in order to theorize and conduct decolonizing research one can argue that  
the researcher as self and as the other needs to be interrogated borrowing from an autoethnographic ontology the researcher or investigator recognizes

the self as the unit of measure and there is a concerted effort to continuously see the self seeing the self through and as the other alexander 2005 ellis 2004 this level of interrogation may require frameworks such as reasonable humanism in which there is a clear understanding of the role of the researcher and researched from a physiological and psychosocial standpoint thereafter the researcher is better prepared to enter into a discourse about decolonizing methodologies the origins of qualitative inquiry in the caribbean can be traced to political and economic discourses marxism postcolonialism neocolonialism capitalism liberalism postmodernism which have challenged ways of knowing and the construction of knowledge evans 2009 traced the origins of qualitative inquiry to slave narratives proprietor s journals missionaries reports and travelogues common to the caribbean is an understanding of how colonial legacies of research have ridiculed oral traditions language and ways of knowing often rendering them valueless and inconsequential this proposed edited volume acknowledges the significance of decolonizing approaches to qualitative research in the caribbean and the wider caribbean diaspora it includes an audience of scholars teacher researchers and students primarily in and across the humanities social sciences and educational studies this proposed volume would provide much needed knowledge and best practice strategies to the community of researchers engaged in decolonizing methodologies additionally this volume will allow readers to think of new imaginings of research design that deconstruct power and privilege to benefit knowledge communities and participants it will spark key objectives directions and frameworks for deeper discussions and interrogations of normative westernized and hegemonic approaches to qualitative research lastly the volume will welcome empirical studies of application of decolonizing methodologies and theoretical studies that frame critical discourse
