the newest addition to the point counterpoint series abortion three perspectives features a debate between four noted philosophers michael tooley celia wolf devine philip e devine and alison m jaggar with three different perspectives on abortion the liberal pro choice approach the communitarian pro life approach and the gender justice approach each of the authors takes a controversial position and all push their philosophical opinions to their logical limits all of the

views presented are radical both in the sense of exploring fundamental assumptions and in the sense of diverging from mainstream opinion in america they do not rely on religious authority therefore their arguments address all citizens regardless of their religious beliefs the first liberal pro choice approach is michael tooley s after examining analyzing and challenging the most important arguments for a right to life before birth he holds that abortion is always morally permissible in itself he argues that it is unreasonable to claim that human embryos fetuses either have or develop a right to life before birth celia wolf devine and philip e devine however take a communitarian pro life position arguing that the human organism is a person from the point at which it first came to be they also argue that because its creators are responsible for its existence the prospective parents have a moral obligation to care for its life finally alison jaggar explores abortion in light of political philosophy and social justice she argues that women everywhere have a human right to abortion that abortion rights are necessary for gender equality and that the availability of abortion is indispensable for pubic health and social development as philosophers the authors have special skills in critical analysis and thinking systematically about values because they do not rely on religious authority their arguments address all citizens regardless of their religious beliefs by drawing examples from real life employing logic philosophy and empirical data and addressing views of abortion from across other disciplines the authors present a well informed and up to date discussion advanced courses in ethics contemporary moral problems sex and gender and bioethics will find this text useful and relevant

despite progressive legislation abortion service implementation and access in south africa s rural areas is challenging and directly affects low income communities this book urges an intervention for safe and accessible abortion services that does not compromise costs or confidentiality within a reparative reproductive justice framework

the attempt to spot deception through its correlates in human behavior has a long history until recently these efforts have concentrated on identifying individual cues that might occur with deception however with the advent of computational means to analyze language and other human behavior we now have the ability to determine whether there are consistent clusters of differences in behavior that might be associated with a false statement as opposed to a true one while its focus is on verbal behavior this book describes a range of behaviors physiological gestural as well as verbal that have been proposed as indicators of deception an overview of the primary psychological and cognitive theories that have been offered as explanations of deceptive behaviors gives context for the description of specific behaviors the book also addresses the differences between data collected in a laboratory and real world data with

respect to the emotional and cognitive state of the liar it discusses sources of real world data and problematic issues in its collection and identifies the primary areas in which applied studies based on real world data are critical including police security border crossing customs and asylum interviews congressional hearings financial reporting legal depositions human resource evaluation predatory communications that include internet scams identity theft and fraud and false product reviews having established the background this book concentrates on computational analyses of deceptive verbal behavior that have enabled the field of deception studies to move from individual cues to overall differences in behavior the computational work is organized around the features used for classification from gram through syntax to predicate argument and rhetorical structure the book concludes with a set of open questions that the computational work has generated

this book explores and elaborates three theories of public reason drawn from rawlsian political liberalism natural law theory and confucianism drawing together academics from these separate approaches the volume explores how the three theories critique each other as well as how each one brings its theoretical arsenal to bear on the urgent contemporary debate of medical assistance in dying the volume is structured in two parts an exploration of the three traditions followed by an in depth overview of the conceptual and historical background in part i the three comprehensive opening chapters are supplemented by six dynamic chapters in dialogue with each other each author responding to the other two traditions and subsequently reflecting on the possible deficiencies of their own theories the chapters in part ii cover a broad range of subjects from an overview of the history of bioethics to the nature of autonomy and its status as a moral and political value in its entirety the volume provides a vibrant and exemplary collaborative resource to scholars interested in the role of public reason and its relevance in bioethical debate
