the death of sir edmund berry godfrey has baffled scholars and armchair detectives for centuries this book offers compelling new evidence and at last a solution to the mystery on a cold october afternoon in 1678 the westminster justice of the peace sir edmund berry godfrey left his home in charing cross and never returned within hours of his disappearance london was abuzz with rumours that the magistrate had been murdered by catholics in retaliation for his investigation into a supposed popish plot against the government five days later speculation morphed into a moral panic after godfrey s body was discovered in a ditch impaled on his own sword in an apparent clumsily staged suicide this book presents an anatomy of a conspiratorial crisis that shook the foundations of late stuart england eroding public faith in authority and official sources of information speculation about godfrey s death dovetailed with suspicions about secret diplomacy at the court of charles ii contributing to the emergence of a partisan press and an oppositional political culture in which the most fantastical claims were not only believable but plausible ultimately conspiracy theories implicating the king s principal minister his queen and his brother in godfrey s murder stoked the passions and divisions that would culminate in the exclusion crisis the most serious challenge to the british monarchy since the civil war ce of a partisan press and an oppositional political culture in which the most fantastical claims were not only believable but plausible ultimately conspiracy theories implicating the king s principal minister his queen and his brother in godfrey s murder stoked the passions and divisions that would culminate in the exclusion crisis the most serious challenge to the

students of the final troubled decades of the thirteenth century following the censures of the 1270s will be delighted to have this richly researched presentation of the metaphysics of godfrey of fontaines modern schoolman plainly the indispensable key to understanding and evaluating godfrey s thought international studies in philosophy a clearly written and substantial contribution to our understanding of this important period in medieval thought choice this excellent study makes accessible the central philosophical ideas of one of the three or four most important parisian masters of theology between thomas aquinas and duns scotus already the leading authority on his subject professor wippel here draws together and greatly extends his previous work providing a superbly documented view of the highest of high scholastic discussion as seen in the contributions of a subtle and spirited participant speculum

this collection of essays papers originally delivered at conferences in bonn and boston show in a detailed way the tone and nature of philosophical and theological issues and arguments at the university of paris in the early fourteenth century they touch on a large number of authors and a broad spectrum of subjects and present these discussions with regard to the intellectual framework set by the earlier parisian generation of thomas aquinas henry of ghent and godfrey of fontaine it becomes evident that the principal contributors to the new intellectual energy in early fourteenth century discussions at paris are meister eckhart john duns scotus hervaeus natalis durandus of st pourçain walter burley and petrus aureoli

the period from thomas aquinas to duns scotus is one of the richest in the history of christian theology the metaphysics of the incarnation aims to provide a thorough examination of the doctrine in this era making explicit its philosophical and theological foundations medieval theologians believed that there were good reasons for supposing that christ s human nature was an individual in the light of this part 1 discusses how the various thinkers held that an individual nature could be united to a

divine person part 2 shows how one divine person could be incarnate without any other part 3 deals with questions of christological predication and part 4 shows how an individual nature is to be distinguished from a person the work begins with a full account of the metaphysics presupposed in the medieval accounts and concludes with observations relating medieval accounts to modern christology
