what differential calculus and in general analysis of the infinite might be can hardly be explained to those innocent of any knowledge of it nor can we here offer a definition at the beginning of this dissertation as is sometimes done in other disciplines it is not that there is no clear definition of this calculus rather the fact is that in order to understand the definition there are concepts that must first be understood besides those ideas in common usage there are also others from finite analysis that are much less common and are usually explained in the course of the development of the differential calculus for this reason it is not possible to understand a definition before its principles are sufficiently clearly seen in the first place this calculus is concerned with variable quantities although every quantity can naturally be increased or decreased without limit still since calculus is directed to a certain purpose we think of some quantities as being constantly the same magnitude while others change through all the stages of increasing and decreasing we note this distinction and call the former constant quantities and the latter variables this characteristic difference is not required by the nature of things but rather because of the special question addressed by the calculus

this volume comprises two invited talks and fifteen selected papers chosen from over 200 submissions to the 15th international conference on the history of language sciences ichols xv originally scheduled to be held

in milan in 2020 the conference was postponed and moved online due to the covid 19 pandemic held from august 23 27 2021 it connected scholars from 30 countries across various time zones the volume is divided into three parts the first part devoted to general and particular issues in the history of linguistics recalls classical authors in relation to contemporary ones as well as newly established disciplines and subtle epistemological inquiries the second part antiquity mainly investigates the sanskrit language and various descriptive and didactic studies approached from both ancient and contemporary metalinguistic frameworks the third part deals with sixteenth to twentieth century works ranging from the tamil language to american archives and from experimental phonostylistics to the history of monosemy

no 104 117 contain also the regents bulletins
