a field guide to the mammals of egypt is the first comprehensive
field guide to every mammal species recorded in contemporary egypt
from gazelle to gerbil from hyena to hyrax each mammal species is
described in detail with reference to identification features status
habitat and habits and with comparisons to similar species a map is
also provided for each species clearly showing its current and in
some cases historical range every species is meticulously
illustrated the bats and sea mammals in detailed black and white
illustrations all other species in scientifically accurate color
plates additional vignettes emphasize aspects of mammal behavior
cover the minutiae of such features as the nose leafs and ear
structure of the various bat species and illustrate the tracks and
trails of the more commonly encountered mammals this is an
indispensable reference work for anyone interested in the wildlife
of egypt from professional biologists to desert travelers and
interested amateurs furthermore as it describes and illustrates
every whale and dolphin species recorded in egyptian waters
including the red sea it will be of special significance to anyone
diving in the region the book is compact easy to slip into a daypack
and well up to the rigors of desert travel

an outstanding contribution the glossary and illustrations are
excellent and most helpful this book will be the standard for years
to come robert m timm department of ecology evolutionary biology
university of kansas and past president american society of
mammalogists douglas a kelt and james l patton provide a long
overdue update to timothy e lawlor s handbook to the orders and
families of living mammals in their new wholly original work a
manual of the mammalia complemented by global range maps high
resolution photographs of skulls and mandibles by bill stone and the
outstanding artwork of fiona reid this book provides an overview of
biological attributes of each higher taxon while highlighting key

and diagnostic characters needed to identify skulls and skins of all recent mammalian orders and most families Kelt and Patton also place taxa in their currently understood supra familial clades and discuss current challenges in higher mammal taxonomy including a comprehensive review of mammalian anatomy to provide a foundation for understanding all characters employed throughout a manual of the mammalia is both a handbook for students learning to identify higher mammal taxa and a uniquely comprehensive reference for mammalogists from across the globe a comprehensive lavishly illustrated reference book nature a success overall recommended choice there is hardly a better manual for comparing old and new taxonomic and phylogenetic constructs for the class mammalia Michael A. Mares Director Curator and Professor Emeritus Sam Noble Museum University of Oklahoma and past president American Society of Mammalogists Kelt and Patton take mammalogy from a 1990 s flip phone to iPhone 13 a manual of the mammalia is entirely on a higher plane journal of mammalogy
