What is the boy crisis? It's a crisis of education worldwide: boys are 50 percent less likely than girls to meet basic proficiency in reading, math, and science. It's a crisis of mental health: ADHD is on the rise, and as boys become young men, their suicide rates go from equal to girls to six times that of young women. It's a crisis of fathering: boys are growing up with less involved fathers and are more likely to drop out of school, drink, do drugs, become delinquent, and end up in prison. It's a crisis of purpose: boys' old sense of purpose—being a warrior, a leader, or a sole breadwinner—are fading. Many bright boys are experiencing a purpose void, feeling alienated, withdrawn, and addicted to immediate gratification. So what is the boy crisis? A comprehensive blueprint for what parents, teachers, and policymakers can do to help our sons become happier.
