this definitive reference work explores the effects of current and expected climate change taking place throughout the world on selected bacterial viral fungal and parasitic infectious fish diseases of economically important fish in tropical and temperate waters

modern perceptions of race across much of the global south are indebted to the brazilian social scientist gilberto freyre who in works such as the masters and the slaves claimed that portuguese colonialism produced exceptionally benign and tolerant race relations this volume radically reinterprets freyre's luso tropicalist arguments and critically engages with the historical complexity of racial concepts and practices in the portuguese speaking world encompassing brazil as well as portuguese speaking societies in africa asia and even portugal itself it places an interdisciplinary group of scholars in conversation to challenge the conventional understanding of twentieth century racialization proffering new insights into such controversial topics as human plasticity racial amalgamation and the tropes and proxies of whiteness

the ideal text for the new aqa a2 biology specification emphasises how science works and brings the new specification to life

empires and their aftermaths were massive planning institutions in the past two hundred years the natural and social sciences emerged at least in part as modes of knowledge production for imperial planning yet these connections are frequently under emphasized in the history of science and its corollary fields the planning moment explores the myriad ways plans and planning practices pervade recent global history the book is built around twenty seven brief case studies that explore the centrality of planning in colonial and postcolonial environments relationships and contexts through a range of disciplines the history of science science and technology studies colonial and postcolonial studies urban studies and the history of knowledge if colonialism made certain landscapes populations and institutions legible while obscuring others the planning moment reveals the frequently disruptive and violent processes of erasure in imperial planning by examining how common sense was produced and how the intransigence of planning persists long after decolonization in recognizing the resistance and subversion that often met colonial plans the book makes visible a range of strategies and techniques by which planning was modified and reappropriated and by which decolonial futures might be imagined contributors itty abraham benjamin allen sarah blacker emily brownell lino camprubí john dimoia mona fawaz lilly irani chihyung jeon robert kett monika kirloskar steinbach karen mcallister laura mitchell gregg mitman aaron moore nada moumtaz tahani nadim anindita nag raúl necochea lópez tamar
