self regulation constitutes an important aspect of the regulatory and oversight process governing professionals this book focuses directly on medical self regulation in the context of both the wider regulatory framework and that of other regulatory models through a critical consideration of recent events including high profile and controversial cases it is demonstrated that the self regulatory process has failed and that only fundamental restructuring and a radical change in attitudes on the part of members of the profession can repair the damage attention is also given to the recent changes current proposals for change and to alternative regulatory models medical self regulation will be of international interest appealing to policy makers as well as students and practitioners in the fields of medicine medical law and sociology and professional regulation

the transformations buddhism has been undergoing in the modern age have inspired much research over the last decade the main focus of attention has been the phenomenon known as buddhist modernism which is defined as a conscious attempt to adjust buddhist teachings and practices in conformity with the modern norms of rationality science or gender equality this book advances research on buddhist modernism by attempting to clarify the highly diverse ways in which buddhist faith thought and practice have developed in the modern age both in buddhist heartlands in asia and in the west it presents a collection of case studies that taken together demonstrate how buddhist traditions interact with modern phenomena such as colonialism and militarism the market economy global interconnectedness the institutionalization of gender equality and recent historical events such as de industrialization and the socio cultural crisis in post soviet buddhist areas this volume shows how the re invention of traditions

constitutes an important pathway in the development of buddhist modernities and emphasizes the pluralistic diversity of these forms in different settings
