essay from the year 2016 in the subject politics basics and general grade a atlantic international university course geopolitics language english abstract to begin with we would like to highlight that doing research on geopolitics has brought us to go deeper into a certain literature that enabled us to understand from the very beginning what geopolitics was meant for the literature we have used consists of two categories books relative to the latest changes on the discipline we mean geopolitics in the present the other literature is concerned with books of the 1990s with some authors like Ó tuathail dalby and others books that give a historical perspective of geopolitics furthermore we believe that for a discipline like geopolitics that we have never studied in our previous university studies we did not just need to make a good assignment and that is all but also to acquire tools that might help us to be knowledgeable in that coursework for this reason we needed to read books that analyze and explain what the essence of geopolitics is our basic thesis statement is that the geographical conditions of a country this is to say that its endowment in natural resources can have an impact on its geopolitical orientation which is its foreign policy in other words geographical conditions influence a country s foreign policy or attitude in international affairs this we will provide an example with gabon our home country
