the third edition of africana studies a survey of africa and the african diaspora is an update of the second edition 1998 and incorporates new chapters that include expanded coverage of issues on women health terrorism the african union and many others as well as the most recent theories and methods in africana studies to date africana studies remains the most comprehensive and most suitable text for both teachers and students interested in africa and the diaspora in the us the caribbean afro latin america and elsewhere the book is divided into five parts the state of the art of africana studies the evolution of the history of black people analysis of the contributions of the black world the present and future status of these peoples and the societies and values of black people the book also includes a chronology of significant events in the history of peoples of african descent and a number of maps

this book attempts in one volume to present more accurately the experiences and contributions of the african world it introduces readers to the most comprehensive account of black interdisciplinary subjects to date and summarizes the research of specialists in a variety of fields the number of contributors variety and depth of coverage show that the work was carefully thought out insights on an earlier edition

based on an extensive literature review in depth interviews fieldwork and anecdotal evidence this text examines china s engagement with east africa notably rwanda burundi kenya tanzania and uganda and considers these relationships through the lens of history diplomacy education trade media cultural exchanges and infrastructure it probes the sentiments of pessimism optimism and pragmatism to explore perceptions about china in east africa africa china s ancient connection to the east african coast as well as other incidents of contact in the past are analyzed from the viewpoint of the deployment of chinese soft power capital in current times the book notably examines the significant role china is playing in the construction of new infrastructure and housing throughout east africa and addresses china s involvement in the natural resources sector and the political debate surrounding the construction of gas and oil pipelines its investment in the tourism sector in the news media and information and communication technology sectors as well as in educational and cultural programs

tropical africa was one of the last regions of the world to experience formal european colonialism a process that coincided with the advent of a range of new scientific specialties and research methods africa as a living laboratory is a far reaching study of the thorny relationship between imperialism and the role of scientific expertise environmental medical racial and anthropological in the colonization of british africa a key source for helen tilley s analysis is the african research survey a project undertaken in the 1930s to explore how modern science was being applied to african problems this project both embraced and recommended an interdisciplinary approach to research on africa that tilley argues underscored the heterogeneity of african environments and the interrelations among the problems being studied while the aim of british colonialists was unquestionably to transform and modernize africa their efforts tilley contends were often unexpectedly subverted by scientific concerns with the local and vernacular meticulously researched and gracefully argued africa as a living laboratory transforms our understanding of imperial history colonial development and the role science played in both

this handbook provides an authoritative and comprehensive overview of african population dynamics variations causes and consequences demonstrating the real world applications of research in policies and programmes african demography has come of age over 50 years the discipline has grown exponentially in the number of training and research institutions specialist experts and academic output all with an aim of addressing the enormous demographic challenges faced by the continent the book draws on old and emerging analytical tools to explore the relationships between population dynamics and social economic cultural and political environments from african perspectives key topics include fertility sexual behaviours healthcare ageing mortality migration displacement the causes and consequences of demographic changes and teaching and research developments in african demography the routledge handbook of african demography will be an essential resource for students and researchers of african demography sociology development and cultural studies

this book represents the first scholarly attempt to summarize and analyze how korea s relationship with africa has been shaped in policy and non policy aspects it shows how far it has come and where it goes the book recognizes that korea africa relations though relatively new break ground by acknowledging the importance of a diligent endeavor to carry out post colonial development and have continued to grow as we find promising progress and opportunities in the mutual cooperation between the two this book is all inclusive covering korea s academic economic diplomatic and civil engagements with africa it investigates untold aspects of korea africa relations

the routledge handbook of africa asia relations is the first handbook aimed at studying the interactions between countries across africa and asia in a multi disciplinary and comprehensive way providing a balanced discussion of historical and on going processes which have both shaped and changed intercontinental relations over time contributors take a thematic approach to examine the ways in which we can conceptualise these two very different yet inextricably linked areas of the world using comparative examples throughout the chronological sections cover early colonialist contacts between africa and asia modern asia africa interactions through diplomacy political networks and societal connections africa asia contemporary relations including increasing economic security and environmental cooperation this handbook grapples with major intellectual questions defines current research and projects future agendas of investigation in the field as such it will be of great interest to students of african and asian politics as well as researchers and policymakers interested in asian and african studies

poverty is south africa s greatest challenge but what is poverty how can it be measured and how can it be reduced if not eliminated in south africa human science knowledge about the cost of living grew out of colonialism industrialization apartheid and civil resistance campaigns which makes this knowledge far from neutral or apolitical south africans have used the poverty datum line pdl gini coefficients and other poverty thresholds to petition the state to chip away at the pillars of white supremacy and more recently to criticize the postapartheid government s failures to deliver on some of its promises rather than promoting one particular policy solution this book argues that poverty knowledge teaches us about the dynamics of historical change the power of racism in white settler societies and the role of grassroots protest movements in shaping state policies and scientific categories readers will gain new perspectives on today s debates about social welfare redistribution and human rights and will ultimately find reasons to rethink conventional approaches to advocacy
