typically practice putting really is a head game i certainly enjoyed reading your book you have brought every act of putting to the surface finally a putting book that doesn't talk about the stroke the whole time i truly believe the best formula for making putts is to roll the ball on the correct line at the correct speed of the two elements speed is the most important the other tangibles that go with it are to read greens correctly and to have confidence in your stroke and read you seem to have touched on each one of the topics in depth the object of putting is to putt the ball in the hole not to move the putter in a certain direction or a certain way the added humor was a nice touch good luck with the publishing of the book and sign me up for a finished copy nice job michael b krick head golf professional carolina trace country club sanford north carolina
